Brooklya Wins From Boston.

BROOKLYN, April 17.—Brooklyn won frem Boston today by a score of 3 to 2.

Rheumatism is caused by an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste have failed to carry off. This waste or refuse matter ferments and sours and generates uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism, with its torturing pains and aches, inflammation and other disagreeable symptoms, gets possession of the system. The aches and pains may be relieved and the inflammation temporarily reduced by the application of a good plaster, penetrating liniment or some other simple flome remedy, but the disease can never be cured while the blood remains saturated with the irritating, pain-producing uric acid poison. The cause should be driven from the blood before the trouble reaches the chronic or helpless stage. S. S. a purely vegeteble remedy, cures Rheumatism by thoroughly cleansing the blood of every particle of the uric acid poison, and making this vital fluid pure, fresh and health-sustaining. It filters out from the circulation the remotest particle of the poison, and when S. S. S. has renovated the blood, Rheumatism is thoroughly and permanently cured. Book on Rheumatism and any medical advice free to all who write.

ELIOT IS AGAINST ATHLETICS President of Harvard Says Sport Is Too Prominent in College Life.

CAMBRIDGE, Mass. April 17.—In the opinion of President Charles W. Eliot of liarvard university as embodied in his annual report to the Board of Overseers today, the exaggeration of athletic sports in schools and colleges remains a crying evil. In general criticism of college sports he retterated his previously expressed opinions regarding foot ball, classing it as "the least useful of all the games."

President Eliot says further:

"The means of repressing the prevailing exaggerating of athletic sports are obvious, as was stated in the last report. The number of intercollegiste contests should be reduced to two in each sport during any one season, the rest of the competition in each sport being exclusively home competition.

The American modifications of Rugby The American modifications of Rugby foot ball have now been played long enough to make possible a judgment as to the success of eminent foot ball players in after life and is what might have been expected. It clearly appears that neither the bodily nor the mental qualities which characterize foot ball pinyers are particularly serviceable to young men who have their way to make in the intellectual callings. Foot ball toughness is not the kind of toughness which is most profitable in after life. The weight and insensitiveness needed in the foot ball line are not the bodily qualities which best serve the man who must make this living by quick, accurate and inventive thinking. To get accustomed to make one's thinking. To get accustomed to make one's greatest exertions in the presence of shouting thousands and of the newspaper extra is bad preparation for the struggles of professional men, who must generally do their best work quite alone, or in the presence of a few critical observers. Even for modern warfare the violent, competitive

The club house is now open, so the members may use the lockers and baths and a light lunch use the lockers and baths and a light lunch is being served. The regular season, with everything in full swing, will open May 9.

Many improvements are being made at the South Omaha Country club and the members will be surprised May 7, when they attend the formal opening to see what changes have been wrought. The opening day celebration will begin in the afternoon and continue during the evening, quite an elaborate program being worked out.

The Omaha Country club directors have set May 2 as the date for the formal opening of that club. The special features of the day will be a handkap golf match in the afternoon and a hop in the evening. The club house will be decorated for the soccasion and the greens will be in fine shape.

occasion and the greens will be in the shape.

Improvements have been going on for some time at the Happy Hollow club, including the enlarging of the porches. This beautiful club will be more popular than ever this season because of the better condition of the golf course and the other improvements which have then made. The porches of the two houses will be connected and a ports cochere is being built on the north. Two new tennis courts have been added, making four in all, and the base ball men have had their hearts gladdened by the addition of a base ball diamond. The formal opening will be May 9.

BANKERS CALL UPON EXECUTIVE Members of Currency Commission Op-

pose Aldrick Bill. WASHINGTON, April 17.-Members of the currency commission of the American Bankers' association, who appeared before the house committee on banking and currency Wednesday in opposition to Aldrich bili, called on President Roosevelt yesterday and made known their views to him. Since coming to Washington to fight the Aldrich bill the commission has paid some attention to the bill of Representative Vreeland of New York. Mr. Vreeland was a caller at the White House during the day. The president received the members of the commission and gave considerable time to listening to their views.

The currency committee of the American Bankers' association held a conference with Representative Vreeland today in relation to his bill to provide for an emergency currency. The commission indicated several amendments to the bill which they said would make it satisfactory to them. An agreement was reached to reduce from \$10,000,000 to \$5,000,000 the aggregate amount of capital required to permit national banks to form voluntary clearing house associations to hold commercial paper to be used in addition to bonds as security for emergency currency. The reason given by the bankers for desiring this reduction was the necessity of having such associations cover a smaller section of the country, which also desired to reduce from 6 to 4 per cent the initial rate of interest to be charged, and it is likely that a compromise will be made on 5 per cent. No encouragement was given to their proposition to allow the assets of the banks to be accepted for one-half of the issue of emergency cur

He Charges That Opposition is to Get Interest on Emergency Currency Reduced to Three Per Cent.

WASHINGTON, April 17 .- In picturesque anguage, at times violently denunciatory, Alfred O. Crozier of Wilmington, Del., told the house committee on banking and curtency that he had unearthed a secret scheme for a compromise on the Aldrich currency bill. He intimated plainly that the members of the currency commission the American Bankers' association did not act fairly with the banking and currency committee in unanimously opposing the Aldrich bill. While opposing the bill principle" he said: "The members of that commission objected to it because the emergency currency was to bear 6 per cent interest and are ready to support it now if the interest is reduced to 8 per cent ..

"Last evening our distinguished banking friends had a conference," he said. "Today they are having another with the wicked promoters of the wicked Aldrich and Vreeland bills. What for? They are agreeing on a compromise. On what basis? Just a simple little amendment reducing the tax to 3 per cent, and some other minor changes."

He declared that this conference was only held after it was stated that the hearings before the banking and currency com-

mittee had been closed. Source of Information.

The Matter of Shape-Keeping

Is a very important one to every man who buys a suit of clothes. When the garments are new a cheap suit makes a great show for its price, but a few

week's wear tells the story. Clothes made for Vollmer's keep their shape to the last. This is because of the careful hand work on the inside of the garments. Such work costs money, yet you can buy a Vollmer's suit for as little as \$15 and up to \$40, and it will give you better satisfaction than many that sell for more We suggest a trial of our make of clothes in your interest as well as our own.
