GOVERNOR'S GRANDSON DEAD

Little One Finally Succumbs to an Attack of Pneumonia After Rallying Somewhat. (From a Staff Correspondent.) DEER MOINES, April 22.—(Special.)—Allen Lawson, the little 6-year-old grandson of Governor Cummins, died this afternoon. The doctors had given up hopes last Friday of his recovery, but the boy showed an unusual strong constitution and by the aid of stimulants he was kept alive. Yesterday he rallied slightly and if he had continued today the physicians would have tapped one lung in hope of giving him relief. The pneumonia having almost entirely filled one lung. The boy's condition, however, was such that this could not be done. His condition yesterday gave such hopes that the governor, who had called all his spare time, went to Grinnell last night and spoke, but received word there after his speech that the child was worse and so returned at once to Des Moines. The boy died at the governor's home. Up to within a few days of his death his mother and brother were quarantined at his parents' home with scarlet fever. The affair began at 10:30 p. m., last night and the hour of its ending is unrecorded. The weekly crop report by the weather bureau issued today says that last week was favorable for corn with a temperature above the normal, ranging from 3 degrees in the southern part of the state to 10 degrees in the northern part. In the northern part because of scarcity of feed stock is in poor condition. Congressman J. A. T. Hull is back from Washington to enter the political campaign for renomination as congressman. Quant and Curious Features of Life in a Rapidly Growing State. Name, Please—Boston boasts of a lobster three feet long. Shucks, that's nothing! Pender has one six feet long.—Pender Republic. Farmers Ahoy—Stirring for corn is in full blast and with everything favorable corn planting will begin May 1.—Custer County Beacon, Dry Valley Dust. The Editor Has a Plan—There should be some thing placed before a farmer's name to tell whether he is married or not. His face never tells whether he is or not. A woman is labeled with "Mrs." Why should not a man be?—Wood River Interests. A Substitute—George Paril has been considering taking a partner into his bachelor hall. We thought his contemplations would settle on a person of feminine disposition, but it seems he is postponing the gentler sex annexation and has secured the services of the Hon. Virgil Wymore as head cook and farm manager.—Pawnee Republican. Never Say Die, Louis!—Men working on the Louis Tilgham building have had a heart crushing time in the first place, after the cellar was dug it began caving and when the walls of the cellar were about completed it caved again on the south side and carried the bricks with it almost to the bottom of the cellar. But then, perseverance is a great asset, and those who possess it are fortunate, indeed.—Verdigree Citizen. Etiquette in Public Life—We always had profound respect for the fellow who has the courage to vote "no" in good, clear, unmistakable accents, when everybody else in a meeting is supporting a motion. We frequently go to county conventions and a public meeting of some kind where harmony prevails in all deliberations, but immediately after adjournment some flannel malcontent with a torpid liver slips up to you, and by innuendo and sarcasm begins to criticize the action of the meeting. The world has no use for such individuals. They are continually propounding discord, discontent and bickering in a community. The man who makes a good stiff fight and then cheerfully submits to the will of the majority is the fellow you respect, be he either friend or foe.—Fairbury News.

Advertisement for Dr. J. C. Parham's medicine. Includes a portrait of a man and text: "For a considerable length of time I have been troubled with rheumatism and kindred complaints, struck me as being plausible. I bought a bottle of the New Discovery preparation at Beaton's drug store in order to test out the claim of Mr. Cooper. The results have convinced me that his theory is correct and his medicine all he claims. My rheumatism has disappeared, my appetite poor, and my entire system seemed to be out of order. Nothing I have tried gave me any permanent relief, and I became discouraged. On reading the advertisements of the Cooper remedies, I made this statement for the help it may be to some one else who is having similar trouble, and will gladly verify its truthfulness to any one who will call upon me."
