of Sixty. CAPTAIN HARDY AN ATTRACTION He is Able to Break Nearly Every Target Sent in the Air from the New Rife Trap.

Interest continues in the big amateur shoot on the Townsend Gun club grounds and shooters from all sections of the surrounding country are arriving daily. Although the sun shone Wednesday morning a high wind cut across the traps and made large scores difficult although several of the squads were shooting in fine form. No one was able to get a straight score on the sixty targets shot in the forenoon, although several made 58.

A. M. MaCrae manufacturer of traps at LeMars, Mo., was personally in charge of the traps, which worked without a slip. Captain Hardy is one of the attractions of the shoot with his exhibitions with the rifle. The new rifle trup is quite interesting, being worked by the shooter and Cap tain Hardy is able to break nearly every target sent in the air. He is also shooting the tournament. the state and will take the majority of the
points, although Stutsman and Meyer of
lowa will give Conaway and Woodrow a
close run in the hamner and discus events. Conaway seems to have it all his own was with the shot. Drake had counted on points in the relays and dashes, but the recent defeat of the Drake entries in the dual meet at Ames has put a damper on that meet at Ames has put a damper on that ambition. Ames sprung a big surprise in the showing of their dash and relay men, as they had not been counted on to do much against the lowa, Drake and Grinnell men. Grinnell has a relay team that will be hard to beat in both events. In the recent home tryouts the team did 126 in the short relay without the aid of Huff, the speediest member of the team. Slaght will be in the meet, contrary to expectations, as he has been working out for some time and is expected to get close to the six-Batteries: Nebraska. Ward and Denslow:

as he has been working out for some time and is expected to get close to the six foot mark. Ames has it all their own way in the half mile and two mile events, and seems to have the call on the mile as well. The winning of the hurdles by the Ames men against the Drake entries has put a different light on this event, and puts Ames up for a strong possibility for the honors of the meet. Iowa has a team that will take more seconds and thirds that will take more seconds and thirds than usual, and on this the local coaches are counting for a showing. If the dis-tance men of the Old Gold squad can take their share of points the Iowa team has a chance to take the load.

S.S.S. DRIVES OUT A good liniment or plaster, or some good home remedy will usually

give temporary relief from the pain of Rheumatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, which produces Rheumatism, is still in the blood and the disease can never be cured while the circulation remains saturated with this irritating, painproducing uric acid poison. The trouble will shift from place to place, settling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion or other irregularity. When neglected or improperly treated, Rheumatism becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S. drives out Rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Book on Rheumatism and any medical advice desired will be sent free to all who write, THE SWIFT SPECIFIC CO., ATLANTA, GA.
