GROCERS AND PAPER BAGS

ago there was not a paper bag factory in the entire country; the few paper bags in use, and at the present time there are single corporations whose invested capital exceeds \$10,000,000, giving employment to over 1,000 people and producing some 1,000,000,000 paper bags annually. It must be conceded that, as an industry, the manufacture of paper bags has been developed to its fullest extent.

vement on this was made and what is known as the square bag was invented. This bag reigned supreme for a decade, but in 1883 the automatic square, or self-opening square bag was invented. This bag, as its name implies, opened automatically when any article was placed in it, and this bag superseded the square bag, as that had previously done the old style, or flat bag.

factory, the industry was rapidly developed in all parts of the country and today the United States stands at the head of the paper bag industry of the world, and bags "made in U. S. A." are found in every civilized country on the face of the globe. The style and quality of paper bags used by a grocer are generally an index to the character of business done by him. The best trade insists on having groceries delivered in good order, and grocers are everywhere looking for paper bags that can be depended upon when looking for a source of supply for their article.

ried the supply of wood for pulp and fiber, and controls every step in the process of manufacture from the tree in the forest to the finished product as sent to the warehouse of the wholesale grocer—American Grocer.

SMOKEFEST AT THE SERVICE

Atlantic City Preacher Shows How Men Can Be Drawn to Church. Five hundred men packed the new Men's church at Atlantic City, N. J., last Sunday night and puffed cigars and pipes furnished by Rev. R. H. Goodman during the sermon, which was sandwiched between a special entertainment, also provided by the pastor of new ideas.

trating the parasites and sucking by professionalists who volunteered from beach front cafes and theaters, made up the remainder of the program. "God never looks on a man as down and out," declared Dr. Goodman; "there is more God than devil in every man, and it is only necessary to give him the proper opportunity to bring it out."

taken out pay for cigars, pipes and tobacco. Conservative members of the big church who at first objected to the smoking and the entertainment have been won over by the success of the idea, and larger quarters probably will be obtained to accommodate the crowds drawn by the novel methods. Bankers and bartenders, prominent business men and laborers rubbed elbows at the service Sunday night. The happy minister claims that he will have an audience that will fill the largest hall in Atlantic City at the service which are to be conducted every Sunday night—New York World.
