Country-Cash Demand for Wheat Slow.

OMAHA, May 16, 1908. Wheat options take a slump, while corn shows an advance. Foreign markets show no strength and conditions are generally favorable for the growing crops in this country. Cash demand for wheat is disappointing and there is little to built the

narket on. Liverpool cables came lower and foreign Mirets are not on an export basis.

Wheat opened soft and with a slackening of each demand and favorable reports from country advices prices eased off considerable. There is little or no support to the market and selling was heavy on all railies. May wheat opened at 95c and closed at sic.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Wheat, Corn. Oats.

Prices on Board of Trade. CHICAGO, May 16.—Increased receipts, and the probability of an augumented movement caused a heavy wheat market here today. At the close July wheat was 140% lower. Corn was 140 higher. Oats were up 14c. Provisions were 21/2 lower to 21/2c higher.

The wheat market opened easy, because of lower prices abroad, both at Liverpool.

of lower prices abroad, both at Liverpool, and on the continent, and the favorable weather for the growing crop in this country. The local receipts were fairly heavy, statements from Kansas and other points in the southwest were to the effect that heavier shipments might be looked for next week. There were some records of damage. heavier shipments might be looked for next week. There were some reports of damage by insects, but these were outweighed by the reports of large receipts. The closs was weak. July opened \(\frac{4}{20}\)\textstyle{4}c lower at 89c to 894c, sold between 88%c and 89\)\textstyle{4}c, sold between 28%c bushels. Primary receipts were 870.000 bushels. Primary receipts were 870.000 bushels against \$31.000 bushels on the corresponding day of last year. Minneapolis, Duluth and Chicago reported receipts of 290 cars, 230 cars last week and 411 cars one year ago.

Corn was weak early in the day, July corn opened \(\frac{1}{2}66\)\textstyle{6}c to \(\frac{1}{2}67\)\textstyle{6}c lower, at 66\)\textstyle{6}c to \(\frac{1}{2}67\)\textstyle{6}c lower, at 66\)\textstyle{6}c to \(\frac{1}{2}67\)\textstyle{6}c, and closed at 66c. Local receipts were 190 cars, with 23 of contract grade.

closed at 66c. Local receipts were 199 cars, with 23 of contract grade.

Trade in oats was light and unimportant. Reports received from Kansas and Nebraska announced an early harvest, and this was also a depressing factor. July oats opened 45c lower at 46%c, sold between 46%c and 47c and closed at 47c. Local receipts were 274 cars.

The provisions market was dull. July pork closed 25%c higher at \$13.45%. Lard was unchanged at \$3.40. Ribs were 25%c higher at \$7.27%.

Estimated receipts for Monday: Wheat, Estimated receipts for Monday: Wheat, SI cars; corn, 26 cars; oats, 278 cars; hogs, 16,000 head. The leading futures ranged as follows:

which commanded such high prices at the close of last week and the beginning of the present, are around soc lower, unless of right good quality.

Cows and helfers have been in good demand all the week, but cow beef also feels the competition of cheap Texas steer beef and a general downward movement in prices has been the result. At the close of the week the best grades are not very much lower, 15@20c being ample to cover all the loss. On the other hand, the medium kinds of cow stuff that have been selling at \$4.0065.00 are safely 25@40c lower, but the feeling is that they are still high as compared with some other grades of catalog away from it as fost as my feeling and the command and the beginning of the present are around social with loose Museatel quoted as \$5.000600 are safely 25.000 decided at \$6.000600 are safely 25.000 are safely 25.0000 are safely 25.000 are safely 25.000 are safely 25.0000 as compared with some other grades of cat-tle. Yearling helfers, like yearling steers, sold at extremely high prices the first of the week, and they, too, have slumped badly, being as much as 25340c lower, except when the quality is especially good.

The trade in stockers and feeders has been pretty light all the week. There has been an absence of free buying on the part of the country and, as a result, the trade has been dull and weak every day. Fleshy feeders, on account of their scar-city, have held up the best, being as a rule not over 15625c lower. New York, May is.—METALS—Increase in receipts as compared with a year ago, the run coasisting largely of lambs, with only a moderate sprinkling of wethers and ewes. The market throughout the week has been unsatisfactory to the selling interests. Southwestern stuff is coming into the southern markets quite freely now and the mutton derived from this search the mutton derived from the demand for the products is none too good at the big eastern consuming centers. For this reason the market at all points has been steadily working to a lower basis and at the close of the week sheep are fully 150/25c lower, prices on that kind having beld up better at this point on account of the moderate receipts. On the other hand, lambs are fully 25/40c lower, prices on the heavy weights, which were neglected more or less all the week.

While this seems like a severe break, it will be well for shippers to understand that

the market bere has been fully as good as at other points; in fact prices here have been right close up with Chicago.

E. F. Turner of Hamilton county said: "I was riding horseback across the country Thursday and pased through the town of Meridian, where I took dinner. After dinner I started toward Waco, and had a hard time on account of high water. At about 5:30 p. m., I was a few miles from Clifton, when I found a cyclone chasing me and I galloped away from it as fast as my horse could carry me. Presently I found that it had passed me, and I sat on the brow of a hill and watched its course. It was carrying along much debris, and when it struck the Bosque river it sucked up all the water leaving the bed of the river practically empty. It crossed the Bosque obliquely and the water it took out of the bed of the stream was carried upward in a column which appeared to me to be about 600 feet high. The most remarkable part of this phenomenon was the fact that it had torn up by the roots a big tree and the tree was on top of the column of water, waving like a plume. When the column of water broke the tree went sailing on and fell about half a mile from where it was taken up."—Dallas News.

"Is the Table ready to lay the resolutions on?" anxiously inquired the Sofa.
"You had better not suggest such a thing, or somebody will sit on you," advised the Cabinet.

"Let me keep the minutes of the meeting." begged the Clock.

"No." decided the Chair, "for then they'll all be second hand."—Baltimore

Felled by Cigar Store Indian.

Dr. H. B. West touched a bunch of cigars held by an Indian squaw in front of the Maheckemo cigar store with the tip of his umbrella during a shower at South Norwalk, and she knocked him unconscious in the gutter.

Dr. West was senseless for more than ten seconds, and it was an hour or to the constitution. Dr. West was senseless for more than ten seconds, and it was an hour or so before he really realized what had occurred. He is willing to swear that this Indian squaw har a pinch that would put out John L. Sullivan in his prime. Through a short circuiting of wires the metallic sign had become charged with the 2,500 volts of the electricity, and but for his having rubber heels on his shoes and gloves on his hands, the dector might have been killed.—New York World.

materials, paints, oils, glass, wall paper
and rugs and carpets have been leading
lines. Some houses have sold more paints
and oils than ever before, while the wall
paper business has been especially good.
The people have bought a better class of
wall paper than before and the tendency
is entirely to better paper.

This spring building and house cleaning
trade has been divided among almost all
lines of trade. While the hardware deaiers were selling halls and small articles,
such as garden tools, window weights and
door slides, the dry goods houses have soid
carpets and rugs, new lace curtains and
draperies.

Passing it on around, while the drugglests were selling patent coatings and whitewashes the exclusive paint and old dealers were selling carlonds of mixed paints and the manufacturers of white lead have done the business which would probably cover several months all in thirty days. The wholesale lumber dealers have been selling immense orders, the consumers, facing an advance, have bought lumber while the price is as low as it 19-15 to 20 per cent below the prices of October, 1967.

Heavy Wear Sells Well.

The brick and stone dealers have like-wise prospered. Almost every part of the city has its cement stone yards, while the larger yards are shipping to the country.

While the building trades and the bouse cleaners have been giving Omaha the volume of trade which has made a big increase in business, the ordinary lines have not been failing behind.

White goods have been selling from the dry goods houses and the milliners have been felling behind.

Crockery and glassware are selling at their best, especially for future orders. The demand for imported wares has astonished many of the dealers who believe the country is reaching a point where a better class of goods will be demanded.

Fruit and produce trade keeps up well, though berries are becoming scarce, and this detracts a great deal from the spot business. New potatoes are becoming plentiful and all other vegetables have a tendency to a lower price because of the abundant supply.

Groceries Keep Up Selling.

The grocery trade is steady and shows

Canned Fish—Canned fish of all kinds are very firm, with the possible exception of salmon, which shows a still stronger front. All stocks on the coast are about exhausted. Cove oysters have weakened a little during the week. Lobster prices are firmer, based on prices recently made for the future pack.

for the future jack.

Syrups and Molasses—The market on corn syrup has been on a steady basis for some time and advances, owing to the high prices of corn, have been predicted from time to time, but as yet they have not materialized. Pure sap maple syrup is scarce; demand good. Molasses is firm.

Salt Fish—Trade in salt fish has been from a hand-to-mouth character. Market on most items is steady; Norway herring being the one exception, as a slight advance has been noted on account of increased demand.

Dried Fruits—Ralsins have not shown
