NO DEMAND FROM FOREIGNERS

Wheat Has an Easter Opening and Values Are Pounded Lower on Heavy Selling from Previous Day.

OMAHA, May 20, 1908. Heavy sales of all grain options this morning, after the strong bulge yesterday, sent values some lower, but the market received good support from bull leaders and prices were fairly well sustained in face of the advance yesterday. Foreign markets came some higher, but without any

were pounded lower on heavy selling from yesterday's advance. Demand has fallen off greatly for cash wheat and millers are complaining strongly of no business. May wheat opened at 96c and closed at 94c.

wheat opened at %c and closed at %c.

Corn opened up strongly over yesterday's close, but fell later on selling and the more bearish sentiment on the floor. Support was good, however, and prices were held at a good level. May corn opened at 70c and closed at 85c.

Frimary wheat receipts were \$18,000 bushels and shipments were \$20,000 bushels and shipments of \$67,000 bushels.

Corn receipts last year of \$91,000 bushels and shipments were \$51,000 bushels.

Corn receipts were \$10,000 bushels and shipments were \$51,000 bushels.

Clearances were \$10,000 bushels and shipments of \$48,000 bushels of corn, none of outs and wheat and flour equal to \$25,000 bushels.

Liverpool closed \$4,004 bushels of corn, none of outs and wheat and flour equal to \$25,000 bushels.

Liverpool closed \$4,004 bushels of wheat and \$40 higher on corn.

Seaboard reported \$50,000 bushels of wheat and \$40 higher on corn.

Seaboard reported \$50,000 bushels of wheat and \$40 higher on corn.

Seaboard reported \$50,000 bushels of wheat and \$40 higher on corn.

Wheat, Corn. Oats. ... 22 169 188 CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade. CHICAGO, May 30.—The local wheat market was weak today, because of the excellent prospects for an early harvest in the southwest. At the close the July delivery was down to, Corn was off 160%. Oats were a shade lower. Provisions were down 6674c.

Cats were a shade lower. Provisions were down 6674c.

Wheat opened weak, and with the exception of a slight raily during the first half hour, due to covering by shorts, continued weak all day. Excellent weather in the southwest, which is rapidly maturing the growing crop, the insignificant demand for export and a slack inquiry for cash grain outweighed firm cables and a few idemand reports from Kansas. Pit traders generally were inclined to the bear side, and there was also free selling by several prominent longs. The easier tone in corn had some effect on the wheat market. The close was weak. July opened 4,0%c lower at 504,250%c, advanced to 21%c and declined to 59%c. The close was sat 35%c. (Clearances of wheat and flour were equal to 325,000 bushels. Primary receipts were \$18,000 bushels, against 581,000 on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 149 cars, cagainst 216 last week and 254 a year ago.

The corn market was inclined to be weak. Demand for May delivery was less urgent than for several days, and although that Demand for May delivery was less urgent than for several days, and although that option at one time touched 7sc, the high point recorded yesterday, the price had a tendency to sag during the greater part of the day. May opened at 78%c, sold up to 7sc and then declined to 77%c, where it closed. July opened 160%c lower at 63%0 80%c, sold off to 66%c and closed at 63%0 80%c. Local receipts were 169 cars, with 89 of contract grade,
Oats were dull and steady. July opened unchanged at 65%c, sold off to 46%c and closed at 65%0 80%c. Local receipts were 169 cars.

Despite a 5810c advance in live hoge, pro-bislons were inclined to be weak, because of realizing sales by small longs and local packers. Final quotations on July pork were of 12½c at 15.5½. Lard was down ic at 25.5½. Ribs were 7½c lower at 37.35. Estimated receipts for tomorrow: Wheat, if cars; corn. 20 cars; oats, 145 cars; hogs, 4,000 hend. The leading futures ranged as follows:

Feverish Action of Market Causes

WEATHER IN THE GRAIN BELT Showers and Probably Pair and Cooler Thursday.

OMAHA, May 20, 1908.

A barometric depression of decided energy overlies the country between the Mississippi river and Rocky mountains, with its center over eastern South Dakota. This depression is accompanied by increasing cloudiness in the Missouri valley, and is followed by rains and anows and much colder in the mountain district and extreme northwest. Showers will occur in this vicinity this afternoon or tonight followed by fair Thursday, with colder tonight and Thursday, with colder tonight and Thursday.

Omaha record of temperature and precipitation compared with the corresponding day of the past three years:

1998, 1907, 1906, 1905.

Minimum temperature... 70 41 52 53 OMAHA, May 20, 1908.

1.94 inches.
Deficiency corresponding period in 1907,
5.19 inches.
Deficiency corresponding period in 1906,
.33 of an inch.

Smaller Operators to Hesitate.

SHARP REACTION AT MIDDAY Henry Selling to Stop Losses Further Unsettle Trading Close is Strong, but Loss is Not All

NEW YORK, May 20.—The feverish actions of today's stock market served to confirm greatly the views of the speculative element and in consequence served to intimidate the less powerful class of operators who saw prices moving in mercurial fashion, apparently at the will of hidden forces whose action could not be followed and whose motives could not be fathomed. That operators of powerful resources were using violent manipulative measures to effect the wide and sudden fluctuations in prices was patent even to superficial observations.

Regained.

prices was patent even to superficial observations.

The constant contrast in these movements might leave open a hypothesis of artificial support for the purpose to resilize profits or sudden withdrawal of support and forcing back of prices to shake off the weak following which has trailed onto the speculative movement of the more powerful bull party. With growing interest of the outside speculative element, made up of individuals of smaller resources than those who undertake to inaugurate a speculative campaign, the bull position has grown increasingly. The number of buyers on margin unable to hold any considerable deciline has grown. Moreover, the extent of the advance has begotten a spirit of caution which makes the holder of stocks on margin quickly retreat and throw over his holdings on any sign of weakness. As a safeguard of their position speculators have been placing stop loss orders to sell at a certain price slightly below the market. With the market honeycombed with such crders, such sudden relapses as those late yesterday and midway of today's session become likely. The early part of the day was given over to a laborious repair process of the inreads on prices effected yesterday and early today.

The sensational advance in Missouri Pacific and the response by sympathy of the whole Gould group was the effective me-

The sensational advance in Missouri Pacific and the response by sympathy of the whole Gould group was the effective medium for supporting prices during this attempt toward a raily. Mysterious allusions to the Gould railroad enterprises involving financial support from the wealthiest individual capitalist made up the motive power of this movement. Efforts to secure authentic confirmation or denial of these rumors were fruitiess during the stock market session and they were left in the realm of conjecture. The news to account for the break in prices was of a similarly shadowy kind. The usual whispers of trouble circulated on the floor of the Stock exchange, which are an inevitable comple-
