All our 50c fancy colored lace and embroidered Richelieu hose, sold the world over at above price. Better stock up with these while you have the chance.

OMAHANS LEAD AT ANNAPOLIS

D. C. Patterson, Jr., First in Graduating Class Sailing Contest.

FOUR FROM THIS CITY STAND HIGH

All Will Be Graduated and Their Records Reflect Credit on Public Schools in Metropolis of Nebraska.

As proof of Admiral Evans statement that boys from the prairie make the best naval officers, D. C. Patterson, Jr., of Omaha, a member of the graduating class at Annapolis, has won first place in his class in the annual sailing contest. He was a member of the crew of eight that represented his class in the class contests, but his class secured second place, being beaten by the second or junior class. The contest was by Mr. Patterson was participated in by the members of the class eight. One hundred and twenty boys were set afloat in the course by a launch and each member of the eight assisted by two of his classmates set out in small sail boats to pick up the buoy. Mr. Patterson secured forty-seven out of a possible 120, an unusually good record and giving him first place. His skill is accounted for in part by the fact that he was an enthusiastic sailor before he entered the academy, getting his practice at Lake Okoboji. Three other Omaha boys are in the graduating class at the academy. They are Frank White, A. M. Charlton and Harry D. McGuire. That four Omaha boys who entered

the academy four years ago will graduate when about 50 per cent of each class failed, is considered an unusual record for the Omaha public school.

CITY ACTS, BUT MACE PAYS

Health Department Cleans Up Premises and Taxes Owner with Costs.

Failure on the part of the owners of the Mace livery barn on Cass street, burned together with seventeen horses, early Tuesday morning, to clean up the premises and remove the filth resulting from the fire, has caused the health department to take action and a large crew of men Friday renovated the premises and cleared away the debris. Health Commissioner Connell is not in the city, but his assistant, Dr. R. P. Jensen, served several pre-emptory notices to clean up, but no attention was paid to them, with the exception of the hauling away by Thursday night the last carcass. Friday morning Mayor Dahlman instructed the acting health commissioner to clean up the premises at once. Difficulty was had in securing men to do the disagreeable work, and falling in an effort to get city prisoners to do it. Street Commissioner Flynn offered his force in the emergency and the street cleaning crew put in the afternoon cleaning up the debris and scattering lime to renovate the odoriferous premises. The crew was instructed to tear down the walls left standing after the fire, the city council in special session in the morning condemning the building. The cost of cleaning up the Mace fire

debris will have to be met temporarily by the city, but it will be taxed against the real estate.

WADSWORTH WILL GO WEST

Probably Will Accept Call to First Presbyterian Church of Pueblo.

Rev. Guy W. Wadsworth, D. D., president of Bellevue college, probably will accept the call to become pastor of the First Presbyterian church of Pueblo, Colo. He is out of the city on business just now and cannot be interviewed as to his intentions. Friends in Omaha believe there is no doubt of his accepting the call and leaving the town at the close of the present scholastic year. The Pueblo church is one of the largest and most influential in the state of Colorado and its pastor is one of the big ministerial offices of the west. Dr. Wadsworth came to Bellevue nearly three years ago. He resigned the presidency of Occidental college, Los Angeles, where he had been for eleven years, to accept the Bellevue position, which had been unsuccessfully administered since Dr. Kerr's resignation a year previous. Already that of Dr. Wadsworth's successor is current and one man mentioned for the place is a able and popular Presbyterian minister who spent several years as pastor of an Omaha church and is now occupying a larger pulpit than the one he had here. It is believed that with some reorganization in the board of trustees at Bellevue he would accept the place. The future of Bellevue college is regarded as bright, for the reason that its identification as an Omaha institution gives it prestige and advantages over many of the small colleges of the west.

RAILROADS RACE WITH CORN

Shoot Grain from Omaha to Chicago Rapidly as Possible.

ALL TO CATCH HIGH PRICE

Railway Officials Say They Are Rushing to Get Business and Not to Break the Corner.

Corn is being rushed to Omaha nowadays at the rate of 250 to 300 cars a day, and is being hurried on to Chicago to get the benefit of the prevailing high prices being paid in that city. James L. Patten of Chicago is said to control the corn market and to have a corner, keeping the price up to 75 cents a bushel, at which price it closed Thursday night. The farmers of the west are getting the advantage of the high market, and although it was reported that a greater part of the grain had been shipped from the state, the farmers are finding time between time of planting corn, to haul load after load to the country elevators. It is then shipped into Omaha and hurried on to Chicago to get the benefit of the prevailing high prices. The farmer was the wiser one who refused to let all his corn go last fall at the low prices which then existed, but held back some of it, until now he is getting from 65 to 66 cents delivered at the country elevator. Not trying to break corner. Railroad men deny that they are in any way assisting to break the corner in corn. They say the corn is coming in and has been for a week and that they are making as quick delivery to Chicago as possible. They do this, not to break any corner, but to render as good service to shippers as possible. "It stands for reason that the Chicago-Omaha line which can give the best service between Omaha and Chicago will get the most business and that is what we are after," said one prominent railroad man. "The shippers want us to get the corn over there as quickly as possible, that it may be sold at the top of the market. Manifestly it is to our advantage to work with the shippers in this instance." "While we are all profiting by the demand for corn and the high price, it is the farmer who was far-sighted enough to hold his corn, who is making the big money," said a grain man. "It pays well to raise corn when the farmer can get from 60 to 65 cents a bushel and that is what he is getting today for all the corn he can haul to market." During the last week the Burlington has hauled about 300 cars of corn from Omaha and Council Bluffs to Chicago, the Northwestern 300 cars, the Rock Island about forty cars, and other roads a large number of cars, but the corn is now coming in faster than at any time this spring and all the roads are preparing to handle a large number of cars.

FOUNTAINS WILL BE TAPPED

Water is to Flow at Last, for the Water Board is Going to Meet.

The memorial water fountain at the intersection of Capitol avenue and Seventeenth street, which was put in place a year ago, has never had a drop of water in it except what has rained in. This has also been the case with the six drinking fountains donated by Mrs. Levi Carter. The city has connected all of them with the mains, the cost of connecting the memorial fountain alone being \$20. The water board signed the contract for water, but no water was forthcoming. After waiting several months, the humane society took the matter up with the city engineering department to see if the fountains could not be made useful as well as ornamental. This department notified the water board that the fountain had been connected, but the board issued no order on the company to have the water turned on, believing the contract was sufficient. Officials of the company now say, however, that they will not turn on the water until they have an explicit order to that effect from the board. Secretary Keonig, of the board, says that this order will be issued when the board meets in its next regular session the

ROADS FIX ROLLING STOCK

Western Lines Bustly Engaged Putting Equipment into Shape for Heavy Business.

Railroads in the west are busily engaged putting their rolling stock in the best possible condition to be ready for heavy business. The Union Pacific has nearly 200 locomotives out of commission, and an effort is being made to have each of these put in the best of condition. "Now is the time to get this rolling stock in shape for the business which will soon open up," said an operating official. "At least we hope it will open up soon. At one place on the line of the Union Pacific orders have been received to place the long line of locomotives which are filling the sidetracks, in condition within the next thirty days."

JOY TO PROPERTY OWNERS

Decision of Supreme Court on Litigation of Taxes Makes Many Happy.

By affirming a decision of Judge Sutton, holding that void taxes can be litigated on the confirmation of sale in scavenger cases, the supreme court has brought joy to a number of property owners whose real estate has been sold for taxes. The decision is in the case of the Parker Real Estate company against A. C. Davidson. Davidson bought the tax certificate on some property belonging to the plaintiff. The latter objected to confirmation, claiming the right to have excluded from the amount of taxes represented in the certificate some sidewalk taxes which had been declared void by the courts. Judge Sutton decided this could be done when the question of confirming the sale came up. The defendant took the case to the supreme court and won. The decision is said to affect about 100 cases in which objection to confirmation have been filed because of alleged void taxes.

The Heel Tendon

The most powerful cord in the foot and in constant action. Nothing so quickly cripples your foot as to allow this tendon to become rubbed and sore. If you've had this trouble, the freedom of the Crossett at this particular place will convert you to the shoe, regardless of all its other good points.

LEWIS A. CROSSETT, INC.

HAYDEN BROTHERS OMAHA AGENTS.

MAIN STREET GETS MONEY

First Name for Halston Thoroughfare Draws Two Hundred Dollar Prize.

Charles W. Dady, 506 Davenport street, furnished the name "Main street" to the Halston Townsite company for one of the new streets laid out in the suburb and was awarded the first prize of a lot in Halston, worth \$30.

The second prize was won by Jessie Campbell, 716 North Sixteenth street, who submitted the name "Mechanic" for the street which runs along the north side of the proposed site for car shops. The second prize was \$20 in cash. Third, fourth and fifth prizes were awarded to Frank H. Garvin, Mrs. Zella Miller and J. J. Hinchey, who furnished the names "Oakwood," "Maywood" and "Highland."

The company received 62 answers to its advertising, and names were submitted in several languages, including some European and Indian names.

FEE DUNS COUNTY FOR PAY

Prisoner Who is a Plumber Fixes Pipe and Demands Two Dollars.

James J. Fox, who is awaiting sentence in the county jail for trying to extort \$200 from Luther Drake has a bill against the county for \$2. Fox is a plumber and Thursday when the waste pipe in his apartments got clogged up he cleaned it out.

"If you had called a plumber he would have charged you \$2. I will only ask it," he told Jailer Osborn. "Please send me \$1 at once, as I want to buy some groceries and tobacco. You can pay the rest later." The bill hasn't been paid yet.
