THE EXPLOITATION OF HAYTI

The following Associated Press clipping will explain why the army and navy have been so active in Hayti under the Wilson regime. They have fought the little black republic and now they mean to plunder it.

"The entrance of American capital into Hayti was announced recently in news that a charter had been secured under New York laws by the Haitian-American Corporation, backed by New York, Chicago and Cincinnati interests. The company will have \$6,000,000 preferred stock of \$100 par, 60,000 shares of common and the same amount of founders' stock without par value.

The corporation, it was learned, has secured control of the railroad, electric light plant, wharf and warehouses of Port au Prince, the capital and principal seaport, and of the electric light property at Cape Haitien. Sugar land in excess of 20,000 acres has been bought or leased, according to the announcement, and a "centrale" with a daily capacity of 2,000 tons of cane will be installed shortly."

Theater, February 16-17.

COLORED GIRL DELIVERS STINGING REBUKE TO RACE CRITIC

At the graduation exercises held in Los Angeles High School, one of the white graduates delivered a bitter attack upon the race in America. A member of the graduating class, Miss Myrtle Anderson, asked permission to answer and the same was given. In a perfect oration Miss Anderson responded with a most stinging reply. Her speech is a gem of thought and reason and received tremendous applause from the crowded theatre.

POLICE OBJECT TO SALE OF NEGRO PAPERS ON STREETS

Birmingham, Ala.—An indicated effort to stop the sale of papers published by Colored men was seen in the action of one of the city detectives, Goldstein, who ordered a Colored man, vender of Negro papers, to go to the office of the chief of police, as he did not want "Negro papers sold on the streets any more."

The vender, however, had taken out a business license, and other than being kept for two hours, cooling his heels in the chief's office was not interfered with.

HINDU WRITES ON RACE PROBLEM

Lajpat Rai, a Hindu writer of international fame, has just published a book in Calcutta entitled, The United States of America. It is an examination into American life and history written for Hindus and covers a wide range of observations. One of the longest chapters of the book is devoted to the race problem and in it he scores the American people for their unjust prejudices toward the black race. He says, in substance, that if America really means to live up to her ideals she must take a different attitude toward her Colored citizens and the Colored citizens of the world.

GRECIAN CIVILIZATION AFRICAN IN ORIGIN

Sir Arthur J. Evans, the famous archeologist who was elected president of the British Association last October and startled Europe with his claims of the African origin of European civilization, delivered another address before the Hellenic Society of London and reiterated his statements. In the introduction to his address he says, "The truth is that the old view of Greek civilization as a kind of 'enfant de miracle' can no longer be maintained. Whether you like it or not, classical students must now admit that the ancient Grecians were a dark people and not Aryans (white)."

COLORED CHEF GAINS NATIONAL FAME

Hannibal, the Colored chef, who is cooking for the famous diet squad of New York policemen, is now known all over the United States. Over half of the squad have gained weight on the twenty-five cent a day bill of fare and while anyone may be able to cook the simple menu, the police say that Hannibal cannot be beaten on the range.

ROMAN CATHOLIC PAPER DEMANDS HELP FOR RACE

The True Voice, a Roman Catholic weekly of Omaha, came out with a double column front page article last week calling upon the Roman Catholic Church and laity of the north to extend a welcoming hand to the Colored people who are now leaving the South. It was in a similar vein to the article appearing in America, a few weeks ago.

All news must be in before Wednesday noon, in order to appear the following Saturday.

EDISON LIKES SWAUNEE RIVER BEST

A Sun reporter visited Thomas Alva Edison recently and asked for an interview before his seventieth birthday, which is this month. The wizard says that of all his inventions he loves the phonograph best. When asked what music he cared the most for, he

remarked that out of over seventy-five thousands records he has heard, his favorite is The Swaunee River and like heart songs.
