YES

**Look at Well Paved
North 24th Street**

As Only ONE EXAMPLE of the Way WALTER S. JARDINE Has Taken Care of the CITY'S BUSINESS in the DEPARTMENT OF PUBLIC IMPROVEMENT.

You Know What an Eyesore That and Other Streets Were. AND REMEMBER

Walter S. Jardine

Built 75 per cent more paving than in any other three years.

Built 11 miles more sewers than in any similar period.

Done 50 per cent more Public Improvement work, without proportional increased appropriation.

Paved or re-paved practically all Main Streets in need of it: No. 24th, No. 30th, Military Ave., Ames Ave., So. 13th, etc.

As a TAXPAYER, and we All pay TAXES, you'll appreciate the advantage of having in office a man who looks after the City's Business as he looks after his own. He is a successful business man who has made a good commissioner.

WALTER S. JARDINE EMPLOYS A LARGE NUMBER OF COLORED MEN.

JARDINE DESERVES A SECOND TERM— DOESN'T HE?

**Offered the United
States Giant Gun**

Colored Mechanic Claims to Have Invented Gun With 90-Mile Range; Which Could Easily Bombard Havana, Cuba, from Key West, Florida.

GERMAN GUN IS OUTCLASSED

Thomas Harold Submitted Plans of His Invention to the Government, But They Were Not Accepted; Believes Boche Gun Embodies Some of His Principles, If Not His Gun.

DENVER, Colo.—Had the United States government accepted a design offered it two years ago by Mr. Thomas W. Harold, Colored, of Portsmouth, General Pershing might now have a gun "over there" capable of throwing a shell ninety miles. The Ledger-Dispatch of March 27 contained the following account of Mr. Harold's gun:

"In connection with the 'mystery gun' with which the Germans are bombarding Paris at a distance of over seventy miles, Thomas W. Harold, Colored, an automobile mechanic at Godwin and Columbia streets, has drawings of a gun offered the government which he claims will carry a shell over ninety miles.

"Harold made his drawing in the Cadillac works at Detroit. His plan calls for a tungsten shell and a peculiar system of rifling the bore of the gun, which insures absolute rotation as the shell leaves the gun. As seen at the muzzle the gun bore looks somewhat like a Maltese cross.

"Harold claims that with his gun Havana, Cuba, could be bombarded from Key West, distant ninety-five miles away. The plans he submitted to the government were refused, but Harold believes that the German gun embodies some of his principles, if not his gun, too."

... This paper has enlisted with the government in the cause of America for the period of the war

EDITORIAL MISCELLANY

The purchasing of Liberty Bonds is a patriotic duty and should represent savings and the ability to invest. They should not be offered for the satisfaction of obligations unless absolutely necessary.

Let us have no frenzy in placing the coming Liberty Loan. Let us not sell an individual beyond his means. Let us have no come backs which will cause embarrassment.

The National Committee of Patriotic Societies, Washington, D. C., is offering a \$50 Liberty Bond for a prize essay on "There should be a bond in every home." This contest is open to high schools which put on a campaign for the sale of Liberty Bonds.

The slogan of the coming Liberty Loan campaign is "Your share is fair."

Every man who buys a third Liberty Bond wants to do his part, but he does not want to make good the deficiency of a financial slacker.

The National Credit Men's Association advises strongly against the acceptance of Liberty Loan bonds for the payment of obligations and offering them on the open market.

The millionaires of America might purchase from their available cash one billion dollars worth of Liberty Bonds, but nobody but the American people as a great body can float the coming Liberty Loan.

Back of the 250 billion dollars of our national resources stands the rugged honesty of America. Liberty Loan bonds are the safest security in the world.

It is for the people to lend their Government the amount of money it needs and take as security the best and soundest financial paper that has ever been issued by any government.

If the Government can take our boys, our products, our industries and our railroads, it can take our money; but never let it be said that it was necessary to conscript wealth to win the war.

All honor is due the splendid services of the many Liberty Loan workers in the state of Nebraska who are donating their services to the Government. They should receive the full co-operation of all the people in the performance of the task set before them.

Lend Him a Hand

**Five Hundred Thousand
American Soldiers in France**

We dare not delay the VICTORY now. American lives are at stake, our own safety, the safety of the whole world. If we are not to prolong the slaughter and the suffering, if we are not to risk defeat or an inconclusive peace, we must act quickly; we must put forth our every effort now.

The army is doing its part. Five hundred thousand American soldiers are in France today. There will be more tomorrow. And more the day after. We are going to send an army large enough so that when we strike, with our Allies, we can drive the German hordes back across the Rhine—so that we can win the decisive VICTORY that will make American freedom safe, and establish a just and lasting peace.

But the whole nation must take part. Our armies in France are looking to us to furnish them in ever greater abundance, the ordnance, the munitions, the supplies that will make their VICTORY possible. We must not fail them.

The Third Liberty Loan is our share in the winning of this war. Upon it depends the safety and success of five hundred thousand American soldiers in France.
