RIGHT OF PETITION DENIED BY FLORIDA LEGISLATURE

(By the Associated Negro Press.) Tallahassee, Fla., May 23 .- The state senate not only refused to have spread on its journal a memorial from the Negro Uplift Association of Florida, but stopped the clerk in the midst of reading it.

The Negro Uplift association's petition asks for a longer school term for Colored children, for a Colored superintendent to be in charge of Colored boys at the State Industrial school, expresses appreciation of efforts of governor and legislature in trying to improve labor conditions at Mariana. demands more sanitary and better lighted waiting rooms in railroad depots, pleads for better laws for the protection of prisoners and the prevention of lynching, asks for a discontinuation for a "disregard of laws" and calls attention to the part Negroes played in winning the war by serving their country both at home and abroad.

The memorial states that every true American will agree that democracy should prevail and adds that the adoption by the legislature of the recommendations of the petition would help to stem "the continuous, though quiet, erodus of the Negro from the South."

The petition was submitted by representative people of the race in business and professions and returned army officials. The effrontery of the legislature in Florida is regarded as one of the grossest insults ever perpetrated upon any people, even in the darkest days of Russia and the "Hunniest" days of Germany.

PHILADELPHIA TO HAVE ADEQUATE DAY NURSERY
