

**EUROPE GETS EVERYTHING;  
AMERICA GETS ANARCHY**

**Americans Have Trouble With For-  
eigners Brought In to Supplant  
Blacks.**

(From the Manufacturers Record)  
**NEW YORK.**—But what is estab-  
lished is that the treaty is going  
back to Europe with an American  
brand on it somewhere. There is  
enough strength in the senate to as-  
sure that.

"The process," as Senator Poindex-  
ter says, "of making a supreme sacri-  
fice of America, and of joining our  
fortunes with the fortunes of men  
everywhere," is going to be stopped.  
It is too early to assert that "the  
process of internationalizing our for-  
tunes," is at an end, but it can be  
said with emphasis that the period in  
which the United States has played  
the part of a milch cow is drawing to  
a close. At least the cow is not go-  
ing to be put in a Swiss barnyard.

If the President does declare that  
Article X must stand as it is or the  
treaty will be abandoned, then unless  
the senate loses its nerve the treaty  
will be abandoned. For that will be  
notice, as clear as any notice could be,  
that Article X does contemplate the  
use of American troops in foreign  
lands without the consent of congress  
and that the United States does mean  
to guarantee the political and terri-  
torial boundaries of the world. That  
is something more than the Deity  
Himself undertook. He might have  
made men so that they were com-  
pelled to obey divine law; He gave  
them, instead, freedom of choice. That  
was the mercy of God; but it is a  
mercy the man-created omnipotence  
which is to sit in Geneva cannot know.  
Its maps are immutable. What is shall  
be forever. And if any doubt it the  
might of the United States will be  
used to convince them. That is Ar-  
ticle X and its accompanying articles,  
as viewed by the senate after months  
of discussion. It is to be hoped that  
the doubting senator is wrong in con-  
cluding that his weak kneed associ-  
ates will change that view under  
final pressure.

In this plethora of crises, not the  
least critical is the condition of the  
President, striving so bravely, under  
such stress and pressure, not only to  
perform his duties but to perform  
them with the foresight of genius.

The Estonians, Poland and other  
eastern "little" states are about to  
make peace with the Bolsheviks, dis-  
patches state, and a Lenine emissary  
has appeared in London with an offer.  
There is an unauthenticated rumor  
that Tokio has also been approached  
by Moscow. Seizure of "red" litera-  
ture by Department of Justice agents  
and publication of some of it has in-  
terested senators. They are more  
than ever wondering what the new  
internationalism means to America.

It is a fact that America is giving  
Europe everything, almost her soul,  
and Europe is giving in exchange—  
anarchists. The first fruits of "join-  
ing our fortunes with the fortunes of  
men everywhere" are described in the  
headlines of the press daily, and a  
greater authority than any now exist-  
ing has said, "By their fruits ye shall  
know them."

**ROGER WILLIAMS UNI-  
VERSITY THRIFT CLUB**

**NASHVILLE, Tenn.**—The true pa-  
triotism of Roger Williams uni-  
versity, Nashville, Tenn., is shown by  
the fact that the Thrift Club, an or-  
ganization formed for war work, is

not only still active but has grown to  
be one of the leading clubs of the uni-  
versity.

The Thrift club gave its annual ban-  
quet Thanksgiving evening and had  
as guests a large number of the alum-  
ni. The reception rooms were filled  
with members of the faculty, alumni,  
students and their friends from Wal-  
den, State Normal and Meharry. The  
college colors, purple and white, were  
prominent throughout the color  
scheme while the Roger spirit per-  
vaded all. This banquet was truly the  
affair of the season.

The problems of reconstruction  
make up the main theme of the liter-  
ary programs of the present month.  
On November 23d President F. A. Mc-  
Kenzie of Fisk spoke on the "Bigness  
of Life." Dr. A. M. Townsend of  
Memphis, ex-president of Roger, will  
speak on "The Two Swordsman" on  
December 21, and President W. J.  
Hale of A. & I. State Normal will de-  
liver the closing address of this series  
on December 28.

**CHALLENGE RESOLUTION  
OF SOUTH CAROLINA  
AMERICAN LEGION**

**NEW YORK, Dec. 4.**—The National  
Association for the Advancement  
of Colored People through its chair-  
man, Mary White Ovington, has is-  
sued a statement challenging a reso-  
lution of the American Legion of  
South Carolina which stated that the  
association's activities would tend to  
cause friction between the races.

The statement, which asserts that  
colored soldiers from South Carolina  
outnumbered white and that the per-  
centage of illiteracy among the col-  
ored troops was less than among the  
white, is as follows:

"I am at a loss to understand your  
position regarding the work of a  
body that lays special stress upon se-  
curing due process of law rather than  
mob violence for Negroes whether  
they live in the north or the south.  
Our branches, in whatever states they  
may operate, voice the sentiment of  
the educated, law-abiding Negroes  
who have so recently helped America  
to achieve victory in the Great War.  
We note, however, that your resolu-  
tion condemning our activities is from  
the American Legion of South Caro-  
lina representing the white soldier  
who fought in the recent great war."

"We feel that we are right in con-  
sidering also the opinion of the col-  
ored soldiers of South Carolina, who  
outnumbered the white, particularly  
in view of the fact that among the  
colored there was less illiteracy than  
among their white comrades at arms.

"Very truly yours,  
" (Signed)  
"MARY WHITE OVINGTON,  
"Chairman."

**ABYSSINIAN PRIEST IN AMER-  
ICA SPEAKING ON WONDERS  
OF AFRICA, URGES NEGROES  
TO RETURN TO HOME OF  
THEIR FATHERS.**

Monroe, Ga.—Dr. C. F. Checzzli,  
an Abyssinian priest and "temporary  
dean of the University of Princeton,"  
Indiana, is in the city and will deliver  
an address. His subject will be  
"Africa and Its Wonders."

This lecturer is a giant in size and  
is exceedingly black, a fact of which  
he is very proud. Said to be a grad-  
uate of the Universities of Oxford and  
Paris, a linguist, claiming a knowl-  
edge of fifteen languages, he is said  
to be the greatest historical scholar  
of his race. He is touring the United  
States, his mission being to "estab-  
lish harmony" and to clear up mis-  
understandings which now exist be-

tween the races. He is strongly urg-  
ing a return of the Negro to Africa,  
the home of his origin, to develop its  
manifold possibilities. "Africa for  
Africans," is his slogan.

Dr. Checzzli attributes the great  
strength, height and longevity of his  
people to their diet, which consists of  
elephant meat and milk.

**OPEN SWIMMING POOL  
FOR COLORED WOMEN**

(By Associated Negro Press)  
New York, Dec. 16.—The only swim-  
ming pool for colored women in the  
city has been opened by the Y. W.  
C. A. at the new building, Lenox ave-  
nue and One Hundred and Thirty-sev-  
enth street. The new building is the  
last of twelve erected as the result of  
the \$4,000,000 campaign of 1913.

**PHENOMENON OF A BLUE SUN**

Cause, Astronomers Assert, Was the  
Eruption of a Large Volcano  
at Sunda States.

Astronomers of different countries  
have more than once recorded a blue  
moon. This remarkable phenomenon  
has been twice observed, both in Italy  
and Austria, but only once in England.

A blue sun has appeared once only,  
and will probably never be seen again  
even to the end of existence, astron-  
omers say. This occurred in August,  
1883, at the Sunda States. The cause  
was the eruption of a large volcano.  
In the terrible shock that followed  
a great range of mountains was blown  
completely into the air. The cavity  
left on the Sunda States after this  
explosion was 1,000 feet deep. Billions  
of tons of rock, dust and mud were  
blown heavenward for no less than  
17 miles.

It can be understood what the ex-  
plosion was like when it is said that  
at Batavia, exactly 100 miles away,  
the street lamps had to be lit, although  
the time was not yet noon. The sun  
up to this time was completely ob-  
scured; but toward sunset—the sunset  
that only the tropics know—came the  
magnificent phenomenon known to  
astronomers as the blue sun. This  
was seen by every one within 30 or  
40 degrees of the equator.

**Soap Bubbles Are Thin.**

Prof. J. Perrin has made a study  
of soap bubbles—just the kind that  
little folks blow with clay pipes—and  
he announces that they are five milli-  
meters thick. This means that it would  
take more than 5,000,000 films of a  
soap bubble to make one inch in thick-  
ness.

While this is getting things down  
pretty fine, still the elementary leaflet  
of mica is finer. Mica can be split  
down to a thickness of one molecule,  
which is thinner than the thickness of  
the skin of a soap bubble, which sug-  
gests that the latter must be crystal-  
line in structure. Just before a soap  
bubble bursts dark spots form on it.  
He found that these housed still dark-  
er, smaller spots. These are droplets  
of water surrounded by strata con-  
densed upon the membrane. They are  
described as being like dust motes in  
a sunbeam.—Detroit News.

**WARNING.**  
Most polishes have a  
weakness due to cheap  
ingredients—it is true  
they brighten and clean,  
but, except with careful  
use, they smear or gum  
up, or leave a deposit,  
or they dry up quickly  
and in time check and  
ruin the very surfaces  
they are supposed to  
improve, or they spot  
when a drop accident-  
ally is left on the sur-  
face.

On the other hand,  
Ivory Polish is effective  
without being injurious.
