SOUTHERN NEWSPAPER MAN, MANAGING EDITOR OMAHA BEE, SUPPORTS MONITOR'S CHARGE **OF ROBBERY OF NEGRO FARMERS**

IN 1917 Taylor Kennerly, a brilliant southern newspaper man, was on the staff of the New York Evening Post of which publication Oswald Garrison Villard, grandson of William Lloyd Garrison and treasurer of the National Association for the Advancement of the Colored People, was for so many years the editor-in-chief. Mr. Villard retired from The Evening Post some months ago to devote his time to the publication of The Nation. The policy of The Post during Mr. Villard's editorship was most friendly to the Negro. It was the one great New York publication which fearlessly championed the Negro's cause. Then, too, it is noteworthy that in 1917 the United States entered the world war. The Negro was needed. Newspapers, north and south, were sounding his praises. There was a vast deal of truth telling about the mistreatment of the Negro in the United States and especially in the South. Conscience-smitten, America pleaded eloquently for a square deal to the most loyal of her citizens, the black American. The patriotic press, and especially that portion of it which was friendly to the Negro, sought writers who knew the truth about southern condi tions and specifically the causes underlying the exodus from the south, and employed such writers to prepare articles to carry out the policy of the paper in bringing such facts to the attention of the discerning public. Newspapers have a policy. It is the duty of members on the staff to carry out that policy.

The Post could not have secured a more competent writer than Taylor Kennerly, formerly managing editor of the Montgomery (Ala.) Advertiser, to prepare a series of articles on "The Negro Exodus From the South." Three articles written by Mr. Kennerly, under this caption and published in The Post of May 25, and June 2 and 9, throw such a flood of light upon the conditions responsible for the so-called "Negro uprising against the whites" at Elaine, Arkansas, a few weeks ago and for which eleven Negroes were sentenced to death in SEVEN MINUTES and more than sixty others were given life or long-time sentences in the penitentiary, that their republication will prove timely, interesting and instructive. In this connection, it will be recalled that The Monitor's special correspondent, who gave the facts about the Elaine "uprising," stated that "The Negro Farmers' Protective Association" had been formed to seek legal redress against a system of robbery of which they had been victims at the hands of unscrupulous whites for years. Mr. Kennerley's articles, and the fact must not be overlooked that they are from the pen of a southern white man who would much rather write a different story, fully corroborate The Monitor's position.

Mr. Kennerly has for the past year been managing editor of the Omaha Bee, which also evidently has a policy. His articles as published in The New York Evening Post will be republished in The Monitor under the exact headings given them in the original publication. They are articles worthy of preservation. Here is the second:
