The Kaffir Chemical Laboratories is engaged in the manufacture of drugs, medicines, pharmaceuticals, chemicals and toilet articles. During the months of organization and incorporation it quietly lined up its resources, machinery, etc., and enters the market, simultaneously with its stock campaign, in the sale of its products. Already there is manufactured \$17,000.00 worth of the following articles:

Kaffir Cream—An ideal skin food.
Dentlo—A pyorrhea preventive tooth paste.
Sultox—A blood antiseptic that acts as a stomach tonic and destroys the poison induced by auto-intoxication.
Rem, an antiphlogistic compound for external inflammation and fever.

A Hair Tonic, A Dandruff Cure, a Hand Lotion, an Antiseptic Wash, an Enema, and a treatment for dread pyorrhea, consisting of a liquid, paste, and tablets.

In addition to the above named preparations we have other formulae of

inestimable value, and as soon as we move to our new location we will add more machinery—thus constantly increasing the number of Kaffir Products on the market.

This business of ours is national in scope. We are offering the public what it wants, goods that bear the stamp of experts. A big sale of goods is inevitable. Big sales, bigger profits to the investor.

TODAY STOCK IS WORTH \$10.00 PER SHARE. NEXT YEAR IT SHOULD HAVE DOUBLED ITSELF.

Less than ten years ago the man who invested \$10.00 in "Denver Mud" sees that share worth \$1,800.00. Madame Walker started with \$1.25 and an idea of a hair preparation. In twelve years she was a millionaire. Yours is the opportunity of getting in on the ground floor. Don't let it slip!
