TURKS BEAT FRENCH ARABS BOYCOTT
 Beirut—Emir Feisal, the newly elected king of Syria, has declared a boycott against countries occupying territory of Arabs—France and England. The Syrian congress signed a decree asking foreigners to evacuate that region. French forces have been repulsed and compelled to retreat from Urfa. The entire Adana section is in a ferment and the roads are infested with hillmen co-operating with the Turkish Nationalists, who make the position of the French forces extremely perilous. It is possible that the whole French force may be wiped out.
 Remember the poor. They may be the rich of the future.
