L. N. Bunce

grew up around the corner of 24th and Lake, and has been in business there for seven years. During that time he has rented about 300 houses to colored people and has always done his best to serve them in any manner. He owns no property of his own and in the renting and selling of houses merely acts as agent for other people. He has always been willing to rent or sell a house to a colored man when he could do so. Any reports to the contrary are absolutely false.

Most of you know Bunce but very few of you know any of his opponents, who now come around begging for votes, giving you the glad hand and trying to shake your confidence in the one man who has had as much or more dealings with the colored people than any man in town.

You know what Bunce has done and will continue to do, but what has any of his opponents done for you, or will do?
