MANY NEGROES HAVE MOVED NORTH TO CAST FIRST VOTE

Figures Indicate That at Least 300,000 Must be Figured in November.

WERE DENIED BALLOT IN SOUTH

Having Been Under the Ban of the Democratic Party They Are All Now Republicans.

Chicago, Sept. 9.—Carefully digested figures indicate that there will be 300,000 first voters among the colored people who have migrated from the South to northern labor centers, attracted by better wages, enlarged school facilities and the freedom of thought and action denied them by the solidly democratic South. It has been the rule in political campaigns to conduct a department for first voters, but this applied always to citizens who had arrived at the voting age of 21. This year the remarkable precedent is presented wherein tens of thousands of voters, granted the right by the constitution of the United-States, but robbed of the greatest privilege of citizenship by the supporters of Candidate Cox in the Southland, many of whom are 35 years of age and even 50, are casting a vote for the first time in their lives.

It is needless to say that these men and women, who have felt the ban that the democrats have placed upon them, will vote the republican ticket. There have been cases where colored, people in the North, far removed from the miserable race hatred of the South, and listening to the siren song of the northern democrat, that there is a difference between their party in the North and that in the South, have so forgotten themselves to vote the democratic ticket, but it is safe to say that these people recently coming privates, but they refused to have the from the South will never be caught in that mesh.

The system of voting, which has grown upon the northern Negro by custom is not so familiar to the people who have recently come to communities on this side of the Mason and Dixon line, and the work of instructing the old citizens, who have journeyed far to enjoy their rights. should be the labor of love among those of the race in the North, who have always enjoyed the great privi-

Special precinct schools will be established by state committees, having jurisdiction over labor centers where this new vote is located. It is held by the managers of the republican party that the responsibility of restoring the ballot to these colored people is largely theirs, in as much as the principle upon which the consti-them fifty years ago is one of the foundation stones of republicanism. Every colored man who has resided in the North, or born in the North, shares this responsibility with the republican party, and it should be his duty to instruct every colored man who has come from the South during the last four years how to register and to vote. First, it should be essential to learn whether he has the qualifications; whether he has lived for sufficient time in the state and county. Take him to the republican authorities in any city and they will

First of all the republican party wants these men and women who have been denied the franchise in the South to have the right to exercise it, and second, naturally, where the full qualifications exist, it wants them to cast their vote for Harding and Coolidge.

Struggling for years under ban of democratic oppression, the industrial necessities that opened a Canaan of equal opportunity for the exodus of southern freedmen is a great boon to them, and it behooves their more fortunate brothers in the North to assist them in every way to the realization of the sacred promises of the consti-

KOREAN WOMEN PLEAD TO U. S.

FOR AID AGAINST JAPS Honolulu, Sept. 9.-The Korean National Association of Honolulu has received copies of the documeents presented by Koreans to the American congressmen touring the far east. The plea of Korean women to Amer-

ica said in part: "Day and night we will scheme to regain our lost land. In the minds of our children we will instill hatred for the Japanese. We ourselves will offer everything for liberty and independence. We would rather die and be free spirits of Korea than live and

be subjects of the mikado." The writing denounced the report of a Korean plot to bomb-or kidnap the congressmen in order to create friction between Japan and the United States as a Japanese canard.

"Only from God on high and from you on earth can we get help. Will you hearken to our dying call?" said a statement by the Korean provisional congress addressed to Americans.

"Korea is the key to the solution of the eastern question. If you speak, your voice will be heard. America and Europe will be a oused."

KAISER'S PETS ARE IN SAD PREDICAMENT

Former Privileged Officers of Wilhelm Have Difficulty in Finding Work.

No one in Germany sighs more fervently for "the good old days" when the kaiser held sway than the former army officer. Forced off the governpay roll, untrained for work other than soldlering, and so generally disliked by the population that he has difficulty in finding any kind of employment, the officer's lot in democratte Germany is a hard one. His prewar world, in which he strutted about as the privileged pet of his emperor, has been utterly destroyed.

A former officer, dolefully discussing his plight, remarked that the expression once current in the United States, "There's no good Indian but a dead Indian," applied precisely to the German public's attitude toward the officer class.

Private soldiers bear out this state ment. "At the beginning of the war," one said, "the troops were fond of their officers, who ate the same food, carried their own packs and shared the hardships of the men. But most of the regular officers were quickly killed off, and those left were sent away from the lines for staff and other

"Their places were taken by reserves, who were an entirely different lot. They had to have special kitchens and milk and plenty of wine. They refused to march with the troops, always riding in automobiles and making the men carry their packs. They were bullies and tyrants and the men grew to hate them. The civilian population felt the same way. I was in Belgium when the armistice was signed, and when we withdrew to the Rhineland the people there were willing enough to provide lodgings for the officers in their homes."

In a number of cases ex-officers have found themselves inadvertently applying for work to the very privates they once commanded. These former soldiers, business men and shopkeepers, take keen delight, it is said, in

turning down their old superiors. After the first revolution it was a risky thing for an officer to appear on the streets in uniform. They were emboldened by the Kapp coup last March, and since then have been showing themselves in increasing numbers, especially student reserve officers, who are easily identified by their pale faces, marked by saber cuts recelved in duels.

MOTHER OF TWENTY-SIX

Woman is Comparatively Young, Says Health Inspector.

Abundia Rivera, forty-two years old, mother of 26 children, only one of whom is living, was revealed at Los Angeles as one of the most unfortunate mothers in the history of the county.

According to the report filed by Dr. Margaret Barr of the Los Angeles county health department, 25 of this mother's children have died before they reached the age of one year. The last child is several years old

and is said to be healthy. Discovery of the remarkable case was made by Dor. Barr in her work in the interest of better bables, which is being directed by Dr. J. L. Pomeroy, head of the department.

Mrs. Rivera was found living near San Gabriel with her third husband, who is only twenty-two years old.

MUSIC AND MUSICIANS-(By Clarence Desdunes.)

GOOD AND BAD HANDS-MENTAL STUDY

The influence of the physical conformation of the bow hand and the string hand on actual playing cannot be overlooked. There are no '.good" or "bad" bow hands or string hands, unless they are deformed. There are only "good" and "bad" heads. By this I mean that the finest development of technic comes from the head, not from

what distinguishes the easy player from the clumsy player.

Students should develop mental study even of technical details. This, practice. For this mental study is of Russia?

the student so that he can gain the mastery of detail of which I have already spoken.

Concerts undoubtedly have great value in developing the student tech I think there is a very doubtful benefit as illustrated in New York, London or other music centers.

The student attending concerts some times try to make two or three a day. This habit of cramming has a tendency to dwarf the development of real appreciation, as the student under DEATH SENTENCE FOR these conditions can little appreciate true work of art when his head is so crammed full of technic that he wears

A VOTE FOR THIS TICKET OPENS THE DOOR OF HOPE

Every right and every privilege of Citizenship that the Colored American Enjoys Came Through the Republican Party. Every Reprisal Against His Citizenship, Every Constitutional Privilege He Has Lost Was Taken By the Democratic Party.

The Democratic party, its platform and its candidates have all ignored the twelve millions of colored citizens, who defended the flag in time of war and loaned to the Government one-fifth of their wealth.

BEAR THIS IN MIND

Thousands of colored people who have moved into Northern labor centers from the Democratic South, CAN VOTE, provided they hold the qualifications of other men. The fact that they are colored does not interfere. Tell them of this privilege, and direct them to their county or city chairman of the Republican organization, who will be glad to give them full instructions.
