REORGANIZATION PROMISED BY REPUBLICANS

Colored Employees to Find Conditions Improved in Their Official Work. Provided the Pre-Election Promises of the Republicans Are Honestly Carried Out.

Washington, Sept. 16.—One of the shortest planks in the republican platform is one of the most significant and refers to the reorganization of the federal departments and bureaus. Aside from the pledge being marked with the sound business sense that has characterized the republican idea of administration of public economies, it will reach one of the sources of racial humiliation that the present administration has visited upon its colored employees, the evil of segregation.

Reorganization with a view to consolidation, the elimination of "duplication, delays and overlapping of work," means that this humiliation will be forever dispelled. Of course, the democrats have absolutely no conception of economy. Their party has never done anything in a constructive way. It is essentially a party of penny aid as such depends upon its brief authority to destroy what others have accumulated. Segregation, the detestable practice born of prejudice, that makes a colored clerk or employee isolated from others engaged in the same work; the provision of separate toilets and other quarters for a man or woman because he happens to be colored, is an extravagance in itself. The democrats wasted the public money to live up to their tenets that one governmental employee should not be treated with the same consideration as others of a different color. Segregation is not only a crime against economy, and the people of this country treated to a saturnalia of waste, are insisting that their money be no longer thrown away just for the simple purpose of satisfying the unwholesome race hatred of a crowd of southern officials who desire to impress upon the country the mannerisms and methods of their section.

BOLEY CELEBRATION

(By Associated Negro Press.)
Boley, Okla., Sept. 16.—Boley, the largest Negro town in the United States—perhaps in the world—held recently the largest celebration ever held by this metropolis of Okfusgee by this metropolis of Okfusgee County.

The occasion was the laying of the cornerstone of the \$50,000 tuberculosis sanatorium that is being built by the state to care for the Negro tubercular sick. Friday, September 3, was the day set apart for the event and the celebration lasted throughout the day.

The arrival of Governor Robertson was the signal to start the day's festivities. He, with a party of state officials and prominent speakers on the program arrived from Shawnee. When the automobiles reached the edge of the town they were met by the mayor and a reception committee. The streets and downtown stores were decorated with bunting and the whole town was in gala attire in honor of the visitors.

Cornerstone laying ceremonies were held at the site, one-half mile south of Boley. Music by a choral club of forty voices was one of the features of the program. The welcome address was delivered by D. J. Turner, mayor of Boley.

SEEK TO PROMOTE INTER-RACIAL AMITY

(By Associated Negro Press.)
New York, Sept. 16.—Belief that the race riots between Negroes and whites can be avoided has led several prominent social workers of the country to form a society for the promo-

tion of harmony between the two races. The committee for the reconciliation of the races is not in favor of the isolation of any race. It has gone on record as being opposed to the resolution passed by the convention held recently in Madison Square Garden, calling upon all Negroes to emigrate to Africa. Fenton C. Johnson, the Negro poet, speaking for the committee, explained that such a movement would only result in a loss for both races.

"The Negro is an essential economic unit in the welfare of America," he said. "The only solution of the present problem is for the blacks and whites to know each other better. That is the purpose of this committee."
