DEMOCRACY AND THE AMERICAN NEGRO

By H. Wallace Thurman.

Fifty-seven years ago the much despised American Negro was released from the shackles of slavery by that incomparable statesman and emancipator, Abraham Lincoln. The Negro was cast out upon the sea of life without knowledge of responsibility and unable to cope with the situation of having to care for himself. He has been hindered from making any great advancement because of lack of knowledge and because of the fact that he was held in partial slavery by the American white man. Has this partial slavery been fully eradicated at this present date of "Freedom and Democracy?" No.

Does the American white man fully realize the meaning of Democracy? Does it mean that a race struggling hard for recognition should be deprived of the rights and privileges which are inherited by them at birth? Does it mean that this race should be surrounded on all sides by prejudice and segregation? Does it mean that they are to be confronted at all times by that Satan-inspired law, "The Jim Crow?" Does it mean that the men of this race shall have to stand to see their women and children being insulted by the brutes who call themselves gentlemen and purveyors of Democracy? No. Democracy does not mean or uphold the acts alluded to in the foregoing, it means that all men regardless of color or creed are created equal and should receive the recognition and respect due them and their posterity.

Who are the men that never fail to respond to the call of arms and never fail to conduct themselves creditably and conscientiously whenever called upon to help protect our nation's rights and honor and make it safe for Democracy? What race residing in this country is subject to lynchings without provocation or fair trial? What race has nearly reached the pinnacle of success although impeded by ignorance, prejudice and segregation? Need I answer the above questions when you know that there is only one race so treated in this fair land of freedom and democracy, and that race is the American Negro.

If this be true then to whom should our government first see that the rules of democracy are applied? Why the American Negro. But does it do this? No. Our government is too busy trying to teach other nations what she yet herself has to learn.

MOVEMENT TO ORGANIZE AND OPERATE BANK

(By The Associated Negro Press.)
RALEIGH, N. C., Oct. 14.—L. M. Cheek, editor of the Raleigh Independent is at the head of a movement to organize and operate here a bank. A charter has been obtained authorizing \$50,000 of Capital stock.

The people of Raleigh and surrounding section are taking considerable blocks of stock, and many of limited means are becoming subscribers to the capital stock in more or less small amounts. There seems to be no doubt of the success of the movement.

As It Seemed to Her.

Dorothy was taken to see the circus. She was very much interested in everything, especially the acrobats. On returning home she was excitedly giving an account of what she had seen, ending up with: "And there were some people flyin' in the air with their bathin' suits on."

He Was Right.
"Can any boy tell me the three foods required to keep the body in health?" There was a silence in the class till one youth held up his hand and replied: "Your breakfast, your dinner and your supper!"

Harding's Creed for Humanity

"I BELIEVE the federal government should stamp out lynching and remove the stain from the fair name of America."

"I believe the Negro citizens of America should be guaranteed the enjoyment of all their rights, that they have earned the full measure of citizenship bestowed, that their sacrifices in blood on the battlefields of the republic have entitled them to all of freedom and opportunity, all of sympathy and aid that the American spirit of fairness and justice demands."
