### INTEREST IN RACIAL ART

In my last letter to the public on racial consciousness, beauty and achievement of our people may not have been made clear. For that reason I am writing again.

In the first place, consciousness means one knowing his or her own mind and governed by the dictates of his or her own thought.

Secondly, there must be some established fact by which one must think, and there is no way to establish these facts without Art and Literature upon the subject which we are most interested in.

Today we are more interested in establishing a racial confidence in a people who have been taught for two hundred years that there was no good thing come out of Africa. Now we must reach every woman and child with our pictures, calendars, post cards, colored dolls and statuettes, the most beautiful printing and workmanship the world has ever known.

The prices are low in order that none will be without them.

Write today for our price-list. No agent.

### PRINCIPAL OF TUSKEGEE RESENTS EPITHETS

(By The Associated Negro Press.)  
CLARKSVILLE, Tenn., Oct. 14.—Dr. R. Moton, principal of Tuskegee Institute, in a very courteous but frank manner, let the editor of the Memphis Commercial Appeal, write, know that the terms "darkey" and "nigger," so frequently used by Southerners, is

very offensive to self-respecting colored people. The editor had preceded Dr. Moton in a public meeting as a speaker, and in the course of his

remarks used the terms. When Dr. Moton arose to speak he said: "The time has passed when the colored people appreciate the term "darkey" or "nigger" from a white man."
