university, Washington, D. C., such selects from the duplicate volumes and other materials in its architectural department as would be suitable to the purposes of the architectural department of the Howard university.

In May last, the Association of Collegiate Schools of Architecture of the United States and Canada held its annual conference in Washington, D. C., Howard university, having recently organized a department of architecture—the first among Negro colleges to institute such a professional course—was invited to send a representative. The president, Dr. J. Stanley Durkee, nominated Prof. William A. Hazel, head of the department. The gift from Columbia university is one of the results of the interest awakened in Howard's new department. This valuable collection of numerous volumes, and about five hundred mounted photographs and drawings, historic buildings in Europe, has just been received. Many courtesies have also been extended the architectural department of Howard university by Professors Warren P. Laird of the University of Pennsylvania and Clarence A. Martin of Cornell university, respectively president and secretary of the Association of Collegiate Schools of Architecture.

INTEREST IN RACIAL ART

In my last letter to the public on racial consciousness, beauty and achievement of our people may not have been made clear. For that reason I am writing again.

In the first place, consciousness means one knowing his or her own mind and governed by the dictates of his or her own thought. Secondly, there must be some established fact by which one must think, and there is no way to establish these facts without Art and Literature upon the subject which we are most interested in.

Today we are more interested in establishing a racial confidence in a people who have been taught for two hundred years that there was no good thing come out of Africa. Now we must reach every woman and child with our pictures, calendars, post cards, colored dolls and statuettes, the most beautiful printing and workmanship the world has ever known.

The prices are low in order that none will be without them. Write today for our price-list. No agent.

**BLACK ANGELS, TOO,
ENTER PEARLY GATES**

(By Associated Negro Press)
ATLANTA, GA., Oct. 21.—"Beautiful lithographed pictures showing colored angels entering the gates of Paradise" is the unique novelty offered for sale in Atlanta by an enterprising individual.

While a good many profess and practice Christianity, the proportion probably being about the same as among white people, it is a fact that all the painters and artists depicting the entrance of angels into heaven have been rather partial to the whites.

**UNITED STATES MAY DEMAND
NAVAL BASE IN HAITI**

NEW YORK, Oct. 21.—The National Association for the Advancement of Colored People, 70 Fifth avenue, New York, has announced the receipt of information from the highest government circles in Haiti to the effect that the United States government might demand the right to establish a naval base at Port au Prince.

Haitians are tremendously stirred at the rumor, according to the report and are preparing to protest against the demand should it be made. Port au Prince is the capital of Haiti.

**BASEBALL STARTED
ON DARK CONTINENT**

PARIS, Oct. 21.—That society life of the days of the African emperors more than 3,000 years ago resembled the social life of the present has been revealed by a magnificent specimen of mosaic uncovered by archaeologists in the ruins of Carthage, according to an announcement by the Academy of Science.

The mosaic, the largest and most beautiful in existence, pictures the life of a Carthaginian nobleman's country house. It portrays "garages" for chariots, resembling the modern automobile garage.

The tablet shows members of the Carthaginian "400" playing a game which apparently is the original of baseball, but the mosaic bears no indications of an attempt by Carthage to "throw" a world series to Rome.
