

## AMONG THE SCHOOLS AND COLLEGES

### BENNETT COLLEGE DEFEATS A. AND F. COLLEGE, 7 TO 0

Touchdown Within the First Three Minutes of Play—Bennett Uses Strategy—Bennett Is Unbeaten.

(By H. C. Eccles)

GREENSBORO, N. C., Dec. 2.—Bill Pass, Bennett's star right halfback, found an opening in A. and F.'s line and made a spectacular run of seventy yards for the first and only touchdown at the annual Thanksgiving game.

A. and F.'s team worked hard, but were powerless in the face of Captain Perry's formidable eleven. Byers, Bennett's right end; Little, Young's left end, along with his brother, Jim, and Dady Gannaway, in fullback, were stars of Bennett's team. Hausley, left guard, and Tucker, right guard, are due much credit for their work. Nelson, right halfback, used the forward pass with much skill and accuracy.

The Thanksgiving victory gave Bennett the distinction of playing two seasons without allowing a rival team to cross her goal. Manager Abernathy, Captain Perry and Coach Baker are due much credit for the splendid showing of their team.

Officials: Referee, O'Daniel, Biddle university; umpire, Taylor, N. T. school; head linesman, Tolver, Shaw university.

### ATLANTA UNIVERSITY TEAM MEETS MOREHOUSE COLLEGE

On the same day, under similar conditions and with similar results as Yale met Harvard, Atlanta university met Morehouse college on the university gridiron before thousands of spec-

tators. The M. C. team carried off the bacon, as they have done for several years past, to the tune of 24-13. But, of course, the Tigers are not so jubilant over their victory. It cost them too dearly. The points against them were the greatest they have suffered this season. Virginia Union, who defeated them, carrying only seven points.

The game began promptly at 2:45 p. m. The ball was kicked to Tigers and downed on the 35-yard line. The Tigers having made no substantial gains, the ball passed to the varsity forward pass and threatened to touchdown when their hopes were suddenly blasted on the 10-yard line. After several downs they made their first touchdown from a forward pass. Two other touchdowns by the Tigers came in rapid succession, both resulting from end runs. The score at the end of the first half: M. C. 18; A. U., 0.

The beginning of the second half revealed that thirty minutes of play had made veterans of the varsity men. They began with such swiftness and decision that the Tigers were steadily driven upon their goal. A forward pass miscarried, however, and fell into the hands of the Tigers, who made another touchdown. Thus ended the first quarter of the last half.

But "it's never too late to mend." Enthusiasm and determination which had been steadily accumulating all through the game finally exploded in the last quarter, completely shutting the Tigers out. The play up to this point had shown that the Tigers were more easily outwitted than outfought. So Captain Elliot decided to kick the ball toward the goal and get the Tig-

ers before they got away with it. Lang kicked 45 yards and the Tiger was downed in his tracks as soon as he caught the ball. After a few downs Lang made the first varsity touchdown and Captain Elliot kicked the only goal of the game. The game, as usual, was characterized by "Little John Cade's" auspicious play. Receiving the ball he went ducking and dodging the Tigers down the field. He learned to do this dodging "75s" in France. His rampage ended abruptly on the 10-yard line. After some saw-saw and fine footwork on the pigskin by Thomas, Captain Elliot made the touchdown, which was all very pleasing, especially to him. He got one of the \$10 prizes. I almost forgot that the Morehouse band was very faint in the last quarter.

Morehouse college, by the way, has a peculiarly pernicious and unpleasant habit of clipping players from the rear, which she uses for the purpose of striking consternation in the hearts of teams smaller in size, weight or number. Atlanta fans well remember that the Atlanta university team lost one of its best players in the M. C. game of the 1919 season, who suffered a broken leg because of this practice. The prent writer takes this method to inform Morehouse that we wish her to relegate this legacy of the cave men to the junk heap of outgrown ideals.

A. BOHANNON, Atlanta university, Atlanta, Ga.

### FACULTY "ROUND TABLE" NEW HOWARD FEATURE

(By The Associated Negro Press) WASHINGTON, Dec. 2.—A new feature at Howard University this year is holding of a faculty "round table" once a month at the home of Professor Stanley F. Durkee, at whose instigation the round table was organized. Special subjects, which will be led by the heads of the department of the university whose work bears relation to the topic discussed, have been selected for each of the meetings. The first round table was held November 4, at which time the administrative officers and the department of agriculture led in the discussion of the topic "Architectural Developments at Howard."

Dr. Durkee feels that great benefits will accrue from the various discussions to be entered into at these meetings.

### EX-PRESIDENT TAFT SPEAKS ON RACE QUESTION

(By The Associated Negro Press) BROOKLYN, N. Y., Dec. 2.—Former President William Howard Taft spoke on the race problem at the Academy of Music under the auspices of the Hampton Association of Brooklyn. In denunciation of race prejudice Mr. Taft said that there is danger of a revival of prejudice against the Jew in the United States.

"Some antediluvian people even now are trying to revive the persecution of the Jew in this country," he declared, "and nothing more un-American could be imagined."

Referring to the Negro problem, the ex-president said the solution lies in education and economic development in both of which, as well as in religious development, he quoted figures to show the great progress of the Negro since 1866.

### NEW HOSPITAL IS OPENED

(By The Associated Negro Press) RICHMOND, Va., Dec. 2.—Thirty-two patients have been moved from the Memorial hospital to the new St. Philip hospital on Marshall street. It was the formal opening of the city's newest infirmary, a handsome structure near the Virginia Railway and Power company viaduct and overlooking a wide sweep of valley bending toward Church hill. The hospital will be exclusively for colored patients and fills an important need and provides more effective facilities for handling the sick of Richmond than was possible under former conditions. The new institution is under the same direction as Memorial, and Frederick B. Morlok will serve as superintendent of both.

## THRIFT URGED BY UNCLE SAM

Treasury Department Is Spending Million Dollars to Encourage Saving.

### WANTS PEOPLE TO INVEST

Carrying on Campaign for the Sale of Thrift Stamps, War Savings Stamps and Saving Certificates — School Rooms Organized.

Washington.—Uncle Sam is spending \$1,000,000 this year, through the savings division of the treasury department, in an effort to encourage thrift.

The expenditure of \$1,000,000 compares with an expenditure last year of approximately \$4,000,000, and the staff of employees which comprises a force in Washington and an organization in every federal reserve district compares with the great force inherited from the war.

Advocates Opening of Bank Accounts. The savings division carries on the campaign for the sale of Thrift stamps, War Savings stamps and saving certificates, but these sales are merely a side line to the general effort, for just as much stress is being put upon the opening of savings accounts in the banks as upon the sale of stamps. Through the subsidiary organizations just as much effort is being made to have the housewife keep a budget as there is effort to propagandize the homes in the interest of government securities.

In the period from December 1, 1917, to January 1, 1919, the sale of government securities, exclusive of Liberty and Victory bonds, reached more than \$1,000,000,000. In 1919 the sales dropped to \$134,230,637.84. In the first six months of this year the sales dropped to \$26,985,842. But the report of the six months of the year is no indication of what the final report will be, according to O. C. Lester of the savings division, who says the people do not save as much during the summer months as at other times.

### School Rooms Are Organized.

When the government first initiated its drive for thrift and asked the assistance of the people, the savings division was organized and the request made for other organizations to co-operate with it. A drive was made to interest the school organizations, the organizations of women, the clubs and industrial concerns and others. But the effort was not entirely successful and the policy has been reversed. The government is now saying to all these organizations that it is ready to co-operate with them and success is being had.

Thousands of school rooms are now organized and in many cities and states courses in thrift are being made a regular part of the curriculum. Industrial concerns have also organized their clubs. Women are teaching the necessity of the budget in the home. Fraternal organizations have joined in and the entire groundwork for the savings campaign has been laid.

### WILL FIGHT "WHITE PLAGUE"

First of Series of Health Conferences to Be Held in Washington This Winter.

Washington.—The first of a series of regional health conferences authorized by the international health conference in Cannes to formulate and put into effect programs dealing with the fight against "the great white plague" will be held here the week beginning December 6, according to an announcement by the public health service.

The conference which is being organized under the joint auspices of the interdepartmental social hygiene board, the public health service, the American Red Cross and the American Social Hygiene association, will also review "past experiences and existing knowledge as to the causes, treatment and prevention of venereal diseases and will formulate recommendations relating to a practicable three-year program for each of the North and South American countries participating."

Prominent health officers and sociologists from all parts of North and South America will attend, the announcement said.

### Too Many Children.

Pontiac, Mich.—Mrs. Esther Cuneaz of Royal Oak has been held for trial in circuit court on a charge of operating a boarding house for children without a state license. It was shown that she had been refused a license. Mrs. Cuneaz recently was sued for divorce by her husband, who charged that not content with having six children of their own, she had taken nine children under six years of age into the house as boarders.

### No Bottom.

Tonopah, Nev.—A miner lowered into a subterranean cavern opened by a miners' blast at Volcano, Nev., some time ago, was unable to discover the ends of the fissure. Stones dropped through the opening could be heard bounding from wall to wall, but there was no sound indicating that they had reached the bottom. Sparkling stalactites on the sides of the cavern were revealed by lights lowered through the opening.
