Maryland Senator Proposes Plan for Acquisition of Late German African Colonies by the United States.

**IS REPUBLIC OF AFRICA A REMOTE POSSIBILITY?**

(By the Associated Negro Press) BALTIMORE, Md., Dec. 30.—The development of Africa and the recently owned German colonies in that continent by white and colored Americans was advocated by Senator Joseph I. France of Maryland in an address recently before the National Association for the Advancement of Colored People at the Academy of Music in Brooklyn.

Senator France suggested that the

Allies fix the German indemnity at \$15,000,000,000, crediting that nation for the African colonies taken with \$5,000,000,000. Then he added:

"These colonies could then be sold by the Allies to the United States for a sum in the neighborhood of from \$5,000,000 to \$7,000,000,000, the Allies receiving credit in this amount against their indebtedness to the United States. In this way Europe would pay a large part of her debt to us. She would then be in a position to purchase from us supplies for her rehabilitation, the foreign exchange situation would be relieved and reconstruction would proceed rapidly.

"The United States would receive for very dubious assets a million square miles of territory—about one-third of her total area—and an opportunity would be offered to white and colored Americans to do their part in co-operating with other nations in the development of that wonderful continent.

"I do not believe that America will seek to evade responsibility when the opportunity offers for sharing in the responsibility for bringing about world improvements. Many colored Americans are interested in this problem and would welcome an opportunity of sharing in the work of upbuilding and developing the African continent.

The time may come when we may yet see a great, free African republic, which, with its material achievements and moral triumphs, will renew in Africa and surpass there the glories of the golden age when the civilization of the Egyptians was the greatest in the world."

Senator France declared that the race problem will never be solved by consistent and concerted efforts to keep the colored races in ignorance and degradation, by depriving them of schools and sanitary surroundings, by recriminations, hatred, prejudice, vengeance, violence, lynchings and burnings at the stake. He said it must be solved by fearless facing of the facts, with recognition that the unchanging principles of liberty and justice are everywhere and at all times applicable, with an acknowledgment of the fact recognized by all the great anthropologists that the colored races have great mental and moral capacity, and that they were created to fulfill a great destiny.

authorities in their anti-vice crusade of the city authorities.

Most of the houses, it was charged at the meeting, are patronized by white men, despite the fact that they are maintained by colored women. Colored people, with the exception of the inmates, are barred in most instances, the committee's informants declared.

Representative colored men declared that their daughters are in danger of being lured from their homes by the proprietors of the houses. "They will not let respectable colored people cross their threshold and we have no means of assisting the authorities in the suppression or the regulation of these places, for we do not know what is going on," one of the speakers is quoted as saying.

The Negro members of the committee declared that they do not want the section in which they live contaminated by the houses and their inmates.

They further declared that nothing is quite so disgusting to respectable colored people as the sight of white men skulking through the darkness to be in the company of colored women—women who often are social outcasts of their own race.
