Besides such poultry as they capture, foxes are very fond of field mice and destroy thousands of them; in this way they are a positive benefit to the agriculturist, says the American Forestry Magazine. They also catch and eat many woodchucks-the latter standing in the utmost fear of them.

In the old designation, Merry Engand, the word merry does not mean hat the people of the kingdom were pecially noted for their merry-makngs, but that the country was pleasint, agreeable, a beautiful land of denty. The word merry is used in when we say "the merry nonth of May." meaning that May s a pleasant month. In this sense poet Edmund Spencer spoke o Merry London." and the earlier poet "haucer wrote a city "that stood full erry upon a haven side," that is was a fine, pleasant city, built beide a haven, or turbor
