Whole No. 318.

AN AMBITIOUS RACIAL ENTERPRISE

The Kaffir Chemical Laboratories, Housed In Three-Story Brick Building, Only a Few Blocks Distant From The Very Heart of the Business Section, Engaged in The Manufacture of Articles For Which There is An Unlimited Demand, Is One of The Big Business Ventures of The County.

AUTHORIZED CAPITALIZATION IS \$500,000.00

Kaffir Products Are Steadily Growing In Favor Wherever They Have Been Introduced. Testimonials Given From Prominent Persons in Public Life. Company Now Manufactures Several Products And Has Formulas For Forty More. Additions To Company D. W. McQueen, Vice-President And Orlando Mitchell, Publicity Man.

The Kaffir Chemical Laboratories is one of the forward-looking enterprises of the country. They are housed in and own the spacious building at 813-15-17-19 North 16th Street, Omaha, Nebr.

Aside from the rooms on the second floor, which are occupied as offices by business and professional men, the entire building is used by the company in the manufacture and distribution of its various products. Here are rooms filled with modern machinery and all of the equipment necessary for the perfection of the many preparation which are being placed upon the market by this company, and for which there is an unlimited demand. Here are stored vast quantities of raw material, containers and advertising matter. Here you will also find the elegant executive and business offices of the company.

The Kaffir Chemical Laboratories is a corporation organized and operated under the laws of the State of Nebraska. They are engaged in the manufacture of pharmaceuticals, chemicals, drug preparations, medicine and all other things incidental to or connected therewith. The corporation may also purchase, own or sell trademarks, trade names, copyrights, patents and formulas, and protect the same under the laws of the several states and all foreign countries. It may also own and encumber all kinds of real and personal property necessary or convenient in the execution of the main business of the corporation, and may do all other things incidental or connected with the business of a wholesale or retail manufacturing druggist.

The authorized capital stock is five hundred thousand dollars, divided into shares of ten dollars each, two hundred

thousand dollars of this stock is common, and three hundred thousand, seven per cent cumulative preferred and voting stock which has priority over all other stock as to assets and dividends. The preferred stockholders receive seven per cent annual dividends.

The home of the Kaffir Chemical Laboratories is situated in the business district one block from trackage and upon one of the busiest thoroughfares. In addition to this, a large amount of raw material is already purchased and stored, together with equipment for the conversion of this material, and a large amount of the finished products which are on hand, which will easily show the assets of the company to be over one-half million dollars.

At the present time, the products of the company are "Dentlo", "Kaffir Kream", "Sultox", "Rem", and a treatment for advanced cases of pyorrhea. "Dentlo" is the best tooth paste ever sold. It is more than a toothpaste. It is a pyorrhea preventive.

Pyorrhea is one of the most dreaded of diseases and any toothpaste that will prevent or check its ravages, is a boon to humanity.

"Kaffir Kream" is an ideal skin food. Not only is it a vanishing cream, so necessary to every well-bred woman's toilet, but it is a skin food which makes the skin smooth and soft, supplying it with the ingredients it needs. This was the first article put out by the Kaffir Chemical Laboratories and from which the corporation takes its name. The demand for this product is constantly increasing.

"Sultox" is a blood antiseptic that acts as a stomach tonic, destroying the poison induced by auto-intoxication to which many diseases are traceable.

It is an aid to digestion, nourishes and enriches the blood, thereby toning up the whole system.

"Rem" is an antiphlogistic compound for external inflammation and fever.

In addition to the products which they are actively engaged in the manufacture of, the company is in possession of forty-five formulas for useful products which can be placed upon the market without the introduction of any other machinery than that with which the Laboratories are already equipped. This will be done as rapidly as possible.

Such people as the Major John R. Lynch, U. S. A. retired, and Lulu Coats of Vaudeville Fame, after using Kaffir Products, have cheerfully given statements testifying to their be-

D. M. McQUEEN

Vice-President Kaffir Chemical Laboratories and of the Eddie Lewis Oil and Gas Company. An Alert and Energetic Business Man.

lief in the high efficiency of these products. Major Lynch writes: "I am using 'Dentlo' and would not be without it." Miss Coats: "I am using 'Kaffir Kream' and find it an ideal face cream."

The Kaffir Chemical Laboratories announces these additions to its executive staff: Mr. D. M. McQueen, Omaha, Nebr., is vice president. He is also State Grand Master of the Masonic Templars of America, and vice-president of Eddie Lewis Oil and Gas Company. Mr. McQueen is a man of forceful and pleasing personality, which will be a great asset to the Kaffir Chemical Laboratories. J. Orlando Mitchell is manager of the Advertising Department. For four years Mr. Mitchell has had charge of advertising and exploitation with the Omaha branch of Vitagraph Company of America.

Mr. Eddie Lewis is a large stockholder. Mr. Lewis is president of the Eddie Lewis Oil and Gas Company.

EDDIE LEWIS

The Young Capitalist Who Has Rich Holdings in Oil and Agricultural Lands in Oklahoma

He possesses extensive holdings in oil and agricultural lands in Oklahoma. He is a young man of sterling worth and splendid prospects. His interest in all matters worth while bespeaks for him a bright future. Mr. Lewis is strong for "Kaffir."

The large outlay of funds which have already been expended in the purchase of a home, the getting together of great stores of supplies, the superior quality of the goods produced and the high efficiency of the management, will sufficiently guarantee early and lucrative returns to all who have had the foresight to invest in this one of the greatest race enterprises of the age.

ROSCOE C. RIDDLE, M. D.

TUSKEGEE NORMAL AND INDUSTRIAL INSTITUTE

(Continued from Page 5.)

Result of Service.

In connection with the discussion of the progress and service of Tuskegee Institute during the forty years of its existence, it is but proper that the results of this service be considered. Through the efforts of the Founder, Dr. Booker T. Washington and his worthy and able successor and friend, Dr. Robert R. Moton, coupled with the sagacity of the Treasurer Mr. Warren Logan, Tuskegee Institute now represents an educational plant valued at some four and a half millions of dollars, which last year had an enrollment of more than 1800 students and employed more than 225 teachers and workers. From this plant has been turned out 3092 finished products as graduates, including 182 who completed the full course during the past year. The members of this army of trained men and women supplemented by thousands of former students, many of whom completed one of the vocations of the Institute, are scattered throughout the world, striving to alleviate the condition of their less fortunate brothers and to add their bit, in the spirit of their Alma Mater, to the progress of the race along all pursuits of endeavor. Several institutions have grown out of Tuskegee, founded by graduates of the Institute, to help further the work of Booker T. Washington, while Tuskegee Institute, under the leadership of Dr. R. R. Moton is continually moving forward in the spirit of the Founder in its efforts to turn out good useful citizens and to inculcate within them the dignity of labor as well as to emphasize the necessity of mixing brain with labor.

A GROUP OF OMAHA'S MOST SUCCESSFUL PROFESSIONAL MEN

Omaha numbers among her professional men, who are well qualified for their respective professions, ten physicians, six dentists and five lawyers. Various schools and colleges are represented. The physicians are J. H. Hutten, L. E. Britt, A. G. Edwards, D. W. Gooden, J. Boston Hill, Amos B. Madison, R. C. Riddle, Herbert Wiggins, A. L. Hawkins and J. E. Norcross. The dentists are W. W. Peebles, Craig Morris, Clarence H. and John A. Singleton, P. W. Sawyer and J. J. Jones. The lawyers are Amos P. Scruggs, H. J. Pinkett, N. W. Ware, Alley W. Lewis and C. W. Morgan.

is Exalted Ruler of the Elks-Legion. He had the highest rank of any colored man in the dental corps.

HERBERT WIGGINS, M. D.

Dr. Herbert Wiggins was born in New Jersey. He is a graduate of Oberlin and the University of Michigan, 1913. He has practiced in New Jersey and North Carolina and came to Omaha in 1919 where he is building up a good practice.

LEONARD E. BRITT, M. D.

Douglas Debating Society

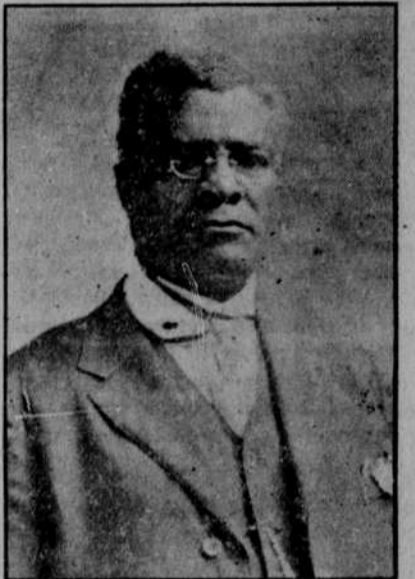

The Douglas Debating Society is an organization of young men between the ages of fourteen and twenty-three, organized January 31, 1920. Its purpose is essentially what its name implies, a society for the furtherance of debating, argumentation and public speaking. The society is open to all young men within the age limit, of good moral character and earnest purpose. The society is open to chal-

lenges for debate, and communications should be addressed to the secretary, James T. Lewis, 2638 Corby street. In the above group reading from left to right the members are, Front row: Lovejoy Crawford; J. Dillard Crawford, president; James T. Lewis, secretary; James Pegg, treasurer; back row: John Pegg; John Horton; Weldon Solomon and Worthington Williams.

A. L. HAWKINS, M. D.

Dr. A. L. Hawkins came to Omaha quite recently from Fort Scott, Kans., where he practiced after his graduation from Meharry. He is the only one of our physicians who is a member of the Douglas county Medical association.

NOAH W. WARE

Noah W. Ware studied privately and successfully passed his examinations for admission to the bar.

AILEY W. LEWIS, L. L. B.

Alley W. Lewis graduated in law from the University of Colorado in 1911. His literary course was taken at Muskingum College, Ohio. He practiced successfully in Denver for five years.

J. BOSTON HILL, M. D.

Dr. Norcross is also a Meharry graduate. He has been in our city about ten months and is located on the South Side.

W. W. PEEBLES, D. D. S.

Dr. W. W. Peebles is the oldest of our dentists having practiced here for sixteen years. He is a native of Washington, D. C., a graduate of Massachusetts State College, and Northwestern, Chicago. He graduated from the officers' training camp at Des Moines and served overseas as captain with the 349th Field Artillery. He is Commander Roosevelt Post American Legion and

AMOS B. MADISON, M. D.

Charles W. Morgan completed his course in Creighton Law School in June and has just been admitted to the bar.

Mrs. Annie Whitley, 2810 N. 28th Street, left August 1 for Portland, Ore., where she is going as an agent for the Mme. South & Johnson Poro College.

Mr. and Mrs. Arthur S. Laws left Wednesday for Chicago and Washington, D. C. to visit relatives. They will go from Washington to Boston to attend the I.K.'s Convention, August 23. They will also visit other places in the east and south, returning this fall. Mrs. Laws will specialize in beauty culture while away.
