them, including the right to vote and be voted for, still we resent the insinuation coming from certain sources that we desire or intend in any wise to disturb the very cordial relations existing between the best of both races in Virginia.

And, in things purely political, we desire nothing but a reign of righteousness and reason and we feel that no group of men and women holding to the faith of the Republican should be allowed to dominate, nor should it be excluded as a mere expedient to deceive the Democratic party to obtain votes. No mere expediency however urgent the call for its exercise, should be allowed to disturb the basic principle of the party.

Stories of Great Scouts

By Elmo Scott Watson

HOW ISRAEL PUTNAM OUTWITTED THE INDIAN "BEAR"

In 1758, while General Lyman's army was encamped near Fort Edward, N. Y., during the French and Indian war, sentinels at one outpost began to disappear mysteriously. Night after night a soldier was posted there and the next morning could not be found.

Only the bravest men in the army were selected for this post. General Lyman gave orders for them to call out "Who goes there?" three times, if they heard any noise, and then if no answer came, to fire. But the disappearances continued until his men were panic-stricken and refused to take such a dangerous station.

At last Israel Putnam, a member of Major Rogers' rangers, volunteered to go on guard at that place and solve the mystery. One hot summer night he heard a rustling in the leaves nearby. The sounds were those of an animal scuffling about on the ground for food and, peering through the darkness, Putnam saw by the faint starlight a huge creature, which he recognized as a bear, slowly shambling toward him.

Something in the bear's gait aroused the scout's suspicion. Putnam obeyed the general's orders. He challenged three times and then fired. A loud growling and struggling noise followed and when the scout rushed forward he found the bear in its death agony. Then he turned the animal over. Enclosed in the shaggy skin, still clutching a tomahawk but stone dead, lay a giant Indian.

The mystery was solved. The other sentinels had believed it was a real bear they heard and allowed the daring warrior to get near enough to use his tomahawk before they learned their mistake. No more sentinels disappeared.

Some time after this event, Putnam was captured by the Indians, who started to burn him at the stake. Just as the flames began to scorch his buckskin garments, a heavy rain began to fall and put out the fire. The savages collected more dry wood and again began the torture. But again they were foiled.

A French officer appeared upon the scene, dashed through the ring of flame, kicked the blazing brands right and left and released the scout, telling the Indians that he must send Putnam to Montreal to be questioned by General Montcalm. Putnam was held in Canada until an exchange of prisoners allowed him to return to his home and he lived to become a famous general in the Revolution.

Why Buried Glass Disintegrates. The bureau of standards says that glass would slowly disintegrate when buried in moist soil. The action on the glass would be due primarily to water and alkali. The disintegrating action would vary with the composition or character of the glass and the conditions that obtained in the soil. This action would probably be extremely slow with any glass and it would probably be centuries before some glass would be completely disintegrated.

Most Men Will Remember That. Boys know nearly as many untrue things as grown folk. Does anyone remember their saying that, "if a turtle got hold of a boy's toe it wouldn't let go until the sun goes down?"—Exchange.
