

PRESIDENT COOLIDGE FAVORS FEDERAL LAW FOR THE SUPPRESSION OF MOB VIOLENCE

STOREY SHOWS SIGNS OF SOUND SENTIMENT ON RACIAL JUSTICE

President of National Association Sends Encouraging Message to Fourteenth Annual Conference

MUCH BEEN ACCOMPLISHED

Progress Shown in the Arousing of American Conscience Through Which Redress of Wrongs Will Come

Kansas City, Kans., Aug. 31.—Moorfield Storey, of Boston, ex-president of the American Bar Association, and now president of the National Association for the Advancement of Colored People, has sent a message of greeting to the Advancement Association in its Fourteenth Annual Conference here, which was publicly read at the opening mass meeting, Wednesday night, August 29.

In his message, Mr. Storey said the inter-racial committees throughout the South showed that the consciences of white people were being roused against the ill-treatment of Negroes. The defeat of the Dyer Anti-Lynching Bill in the last Congress by the filibuster of southern senators was an admission, said Mr. Storey, that the crime of lynching was a southern one. Mr. Storey's message in full is as follows:

"I am sorry that I cannot meet you face to face and in person offer you my congratulations on the successful year that has passed since our last meeting, and the prospects of assured and complete success that awaits us."

"It is true that the Anti-Lynching Bill was defeated in the Senate by the refusal of southern senators to allow it even to be considered. This was an admission that lynching was a southern crime which they could not defend, and would not even discuss, but the vote in the House of Representatives, the strong backing from powerful influences all over the country, the signatures of governors and leading citizens, and the vote of conventions and legislatures were in themselves a success, for they showed what our agitation had accomplished in creating public opinion."

"The results of the election in northern states showed what our votes can accomplish, and made us a recognized power which can not be trifled with. Our success in the last election points the way for our future action."

"The inter-racial organizations in the southern states show that the consciences of people, who have probably long felt that the colored people in their various neighborhoods were ill-treated, but have been silent, are at last aroused to action, and this is most important for till the people's conscience is aroused, nothing is really accomplished."

"The Ku Klux Klan, calling itself a purely American society and organized to use lawless methods for accomplishing its ends, is on the defensive, and in the nature of things cannot endure."

"Our various branches have accomplished brilliant results in various cases which they have undertaken and the association as a whole is recognized and respected as a force which is working for good."

"The road before us is long and difficult, but look backward for a moment and see how much longer and harder is the road which has been traveled in the last sixty years. Then look forward again with fresh courage and pledge yourselves never to admit defeat but to press on till every vestige of race discrimination has disappeared, and the Negro citizens of this great country are in fact, as they are now in law, the unquestioned equals of every other American citizen."

CALLS ON THE PRESIDENT

Washington, Aug. 31.—W. H. Lewis, of Boston, assistant attorney general under President Taft, called upon President Coolidge last week. Mr. Lewis was the first colored man named to the position of assistant attorney-general. He was a delegate to the republican national convention in 1920 and attended Amherst College with Mr. Coolidge.

FRANCE BANS "BIRTH OF NATION"

French Prohibit Showing of Vicious Film as Negroes Show Resentment

(Crusader Service)

Paris, Aug. 31.—Because feelings of French Negroes have been outraged by the barbarities of Americans, who resented their presence in restaurants and bars, the showing of D. W. Griffith's film, "The Birth of a Nation", has been prohibited by the police.

The censor passed on the picture favorably twelve days ago, but it is understood the police ban has been clapped on as a concession to France's Negro population. Premier Poincare himself has officially recognized their complaints by publishing a general warning to Americans that the equal rights of French Negroes must be respected.

The attempt to "put over" "The Birth of a Nation" upon the French public is another of a long series of determined attempts being made by white Americans to impose their color prejudices upon the people of Europe. These attempts, backed as they are on several occasions by American officials, give the average European the impression of a war being fought out over the breadth and length of Europe between the United States of America and the Negro race.

NEWSLETS

The lull in lynching activities for the state of Georgia became spirited last week when three colored men were hanged and two flogged.

Hon. Oliver Randolph, a successful colored lawyer of Newark, N. J., has been named Assistant U. S. District Attorney in that state.

CLAIMS DETECTIVE ASSAULTED HIM

William Smith Shows Monitor Swollen Jaws the Result of Blows from Fists of Burly Police Officer

BRUTALITY IS UNJUSTIFIED

William Smith, 1506 South Twenty-second street, who claims to be thirty years old, but who is quite small of stature and looks like a youth of sixteen, visited the editor of the Monitor Sunday morning and showed him two badly swollen jaws which he said were the result of blows struck him without provocation by one of the city detectives Saturday afternoon about half past three o'clock at the corner of Thirteenth and Pacific streets.

According to Smith's story, which The Monitor has since verified by witnesses interviewed, he was standing on the corner in question with a radio set in his hand, talking to two boys, Clary and Ural Lee of Thirteenth and Mason street, when two plain clothes men said to be Detectives Augie and Frank, unobserved, came up behind him and one of them seizing him by the arm accused him of stealing a radio set and trying to sell it to a boy. This Smith, who makes radio sets, denied. The officers said their informant was a woman. Upon Smith's denial one of the detectives, "the older man with gold teeth", as Smith described him, struck him several heavy blows on the jaw. He was then taken to the police station, but no charges were filed against him, as the desk sergeant or chief detective told the men to take him to his home at 1506 South Twenty-second street, and if he was lying about making radio sets they could find it out. They took him to his home where they were shown his tools and uncompleted radio sets and were evidently satisfied.

The brutality practiced upon Smith was damnably cowardly and unjustifiable as he is a mere boy in stature, and even if he had been insolent to the officers, which it is claimed he was not, they would have had no right to strike him. The Monitor advised Smith to be sure of the identity of the man who struck him and file charges against him. Cases of this kind should not be permitted to drop or go by default.

Saturday afternoon, Mrs. Mattie Johnson, superintendent of the Sunday school, and Mrs. Taylor, superintendent of the primary department, picniced with the children in Elmwood park. The children certainly enjoyed their play and bountiful luncheon.

The pastor will have for his morning topic, "The Toilers". Sunday evening is the regular monthly consecration meeting for the Endeavorers. The topic and Scripture are interesting, "Lessons from the Psalms—A Singing Psalm". Psalm 94:1-13.

SAYS FRANCE WILL MAKE NO RACE DISTINCTIONS

French Professor Declares Country Owe Debt of Gratitude to Loyal Black Defenders

(Crusader Service)

Williamstown, Mass., August 31.—Speaking at the Institute of Politics here, Professor Cru, in answer to certain remarks by Count Kessler, emphasized that France owed a great debt of gratitude to her African troops and would make no distinction between colored and other troops.

Count Kessler had stated his belief that France started the new armament race. In spite of France's diminishing population, he said, France had colonial reserves of men that were increasing fast. Epen if France reduced her metropolitan army she always had the means of retaining the largest military force in the world.

Count Kessler did not object to black troops as such. From all he heard they behaved no worse in Germany than white troops. What he wanted to bring out was the development of France's reserve of manpower in African troops.

COLORED ASSISTANT CITY ARCHITECT

Pittsburgh, Pa., Aug. 31.—Mayor Magee has appointed Louis A. R. Bellinger as assistant to the city architect. Galley, assistant chief clerk of the Railway Mail Service, who is a colored man, recently raised from the ranks of the service to the high position that he now holds.

CAPTAIN TRENT OF FIRE DEPARTMENT DIES SUDDENLY

The community was startled Saturday afternoon by the sad news of the sudden death of Charles C. Trent, junior captain of Hose Company No. 11 Omaha Fire Department. Captain Trent who had been on night duty this month was in good spirits and apparently in good health, with the exception of what he considered a slight cold contracted at a fire Thursday night, when he went home Saturday morning. About 2 o'clock in the afternoon he became quite ill, medical aid was summoned and he was rushed to Paxton Memorial hospital, where he expired almost as soon as he reached there from cerebral apoplexy.

Captain Trent was 49 years old. He was born at Dalton, Mo., and had been a resident of Omaha for twenty-five years and a member of the Fire Department for sixteen. He is survived by a widow, a brother, a sister and other relatives. The funeral was held Wednesday afternoon from Zion Baptist church under the auspices of Rescue Lodge A. F. and A. M. No. 4. Rev. W. F. Botts officiated.

MULTIPLYING MOBS MENACING COUNTRY MOVE COOLIDGE

Ku Klux Klan and Flogging Outbreaks Cause Chief Executive to Consider Federal Anti-Mob Law

2 MORE LYNCHED, GEORGIA

Martial Law Suggested by Governor—Disturbances Continue in Oklahoma and Ohio

Washington, D. C., Aug. 31.—Continuing outbreaks of mob violence in 5 states have caused the Coolidge administration to consider legislation making such offenses a crime against the government.

Here is the tenor of dispatches which reached the President's desk this week:

GEORGIA—Two colored men, Lee Green and Aaron Harris, hanged and riddled by mobs on trivial charges. Three Hudson brothers, white, arrested near Macon charged with flogging colored men. They are thought to be part of a gang terrorizing the country for the past six months. Martial law has been suggested to the governor.

FLORIDA—Alleged Klansmen overpowered the jailer at Eau Gallie and released an alleged member of the Klan from jail.

TEXAS—Four state investigations are under way in the supposed effort to uncover who is responsible for the hundreds of floggings by masked gangs.

OHIO—A district gathering of 50,000 Klansmen near Steubenville, Ohio, threatens to end in bloodshed and civil war.

OKLAHOMA—Since martial law has been proclaimed in Tulsa, there have been four more floggings by alleged Klansmen.

Coolidge Interested President Coolidge was reported deeply concerned by the apparent increased disregard for law and order. The President and other government officials were said to be considering the advisability of enacting an anti-mob bill in the next Congress. The proposed legislation would apply not only to lynch mobs, but to all organizations of masked men who take the law into their own hands.

The Dyer bill, passed by the last House, but "talked to death" in the Senate by a Democratic filibuster, will be reintroduced in the next Congress, it has been learned. The Coolidge administration is expected to support this measure inasmuch as the Executive was elected on a platform which pledged its enactment.

Federal authorities, however, hope to extend the Dyer bill to include all masked organizations attempting mob violence of any nature.

Anti-Whipping Law A movement now under way would amend the bill to make any act of mob violence a federal crime. Under this inventory would come the whippings, deportations and "tar and feather" outrages, frequently attributed to the Ku Klux Klan. Penalties on a lesser scale than those applying to lynchings would be provided.

WORK ASKS \$500,000 FOR HOWARD UNIVERSITY

Washington, August 31.—Dr. Hubert Work, Secretary of the Interior, will ask Congress to appropriate \$500,000 for the construction and equipment of an addition to the medical and dental school at Howard university here. Of the amount sought \$130,000 for equipment. These amounts have been already included in the estimates of the appropriations of the Department of the Interior for the coming fiscal year of 1925. Secretary Work said that it is due to the insufficient facilities for the education of the colored race in the medical and dental professions existing throughout the United States.

At the present time the medical school of Howard university is being conducted in a small building. The proposed appropriation would be used to build a large structure, which would practically double its present capacity.

Miss Anna McKoin of Portland, Oregon, is the guest of her cousin, Mrs. W. E. Davis, 26th and Q street, South Side.
