Their first conversation betrayed the fact that she was not fastidious

At a distance she had appeared unusually neat, immaculate. But upon their first face-to-face meeting he discovered that her teeth were not clean. And he soon lost interest.

So many people overlook this one matter of fastidiousness. And do so in spite of the fact that in conversation the teeth are the one most noticeable thing about you.

Notice today how you, yourself, watch another person's teeth when he or she is talking. If the teeth are not well kept they at once become a liability.

Listerine Tooth Paste cleans teeth a new way. It has one chemical base discovered a polishing ingredient that really cleans without scratching the enamel—a difficult problem finally solved.

You will notice the improvement even in the first few days. And you know it is cleaning safely.

So the makers of Listerine, the safe antiseptic, have found for you also the really safe dentifrice.

What are your teeth saying about you today?—LAMBERT PHARMACAL CO., Saint Louis, U. S. A.
