OMAHA URBAN LEAGUE NOTES

By the number of applicants applying for jobs in the League office, the supply of labor far exceeds the demand. It may be well to think of the job you now have and save some of your weekly earnings. Without doubt it will assist in meeting many emergencies before winter is over.

The Urban League is in position to offer you expert advice on working conditions in other sections of the country. Data received from our National Office each month is available and may save you the expense and embarrassment of being without a job in changing locations.

The League encourages intelligent giving for charitable purposes. We also encourage worth while investments. If you are in doubt about appeals or the investment of funds we may be of service to you. If we cannot, we can direct you to the proper source.

During July the League reported 465 personal contacts in the office. These contacts involved matters of employment, information and advice.

During the past month more than 25 interviews and conferences were held with heads of industries, executives and employers on the work of the Urban League. Much satisfaction has been evidenced by all with the advent of an organization with one program of the League.

EMANCIPATION DAY OBSERVATION

To the Citizens of Omaha: The colored people of our city have made arrangements for the proper observance of Emancipation day, September 11th.

The day will be given over to picnicking and athletic events at Krug park, and it is the one day in the year when these people from every part of the city are given an opportunity to hold a genuine reunion, and enter into the spirit of appreciation they feel for this act of the great Lincoln.

It is highly creditable to them that they have, year after year, made this signal demonstration of their gratitude, and I respectfully suggest that wherever possible, their employers allow them their freedom for this day.

Respectfully,
JAMES C. DAHLMAN,
Mayor.

Natural gas opponents are advertising for people who have had trouble with that fuel. Now let's hear from the folks who had trouble with automobiles 25 years ago and see what we can do about that.

"How often does a champion have to defend his title?" the information editor is asked. Just as often, that's as Mr. ...

BEWARE --

Stories of natural gas that happened from five to twenty years ago are being spread in order to keep natural gas out of Omaha. These stories are being told for no good purpose and mostly by persons with selfish intent.

Natural Gas FACTS --

- 1.—Natural Gas will cut your gas bills at least 30 per cent and save Omaha gas users \$500,000 a year.
- 2.—Natural Gas is the cleanest and most efficient fuel ever produced. It does not dirty kitchen utensils.
3. Natural Gas will furnish Omaha industries a cheap fuel. That's the cause of much opposition from some coal men. Cheap fuel will give Omaha a chance to expand industrially, meaning more employment.
4. Omahans are assured of proper pressure and supply, because the pipe line will be the largest ever laid and the field is ample for all future needs.
- 5.—The Natural Gas bonds will not increase taxes one penny. All interest and principal will be met with revenue from the sale of the gas.
