A weekly newspaper published at Dakota City, Nebraska. Permission has been granted for the transmission of this paper through the mails as second-class matter. Telephone No. 43.

We know of one line af railroad that Mr Harriman does not centrol just at present, and that is the Sioux City, Crystal Lake & Homer.

Among the important bills intro-duced in the Nebraska legislature on Thursday, January 3rd, the first day of the session for the introduction of bills, were S F. No. 2 by Senstor King, of Polk county, to abolish free passes. It is a copy of the federal law on the same subject with the exception of the omission of managers and superintendents of soldiers homes. These were omitted from the class of persons exempt from the law for the reason that such persons in Nebraska are public officers receiving salaries from the state. Another is S. F. No. 1, introduced by Senator Latta, of Burt county, for a 2-cent passenger fare on all railroads in the state. H. Roll No. 5, to provide and establish a young boy. a system of local option by counties on the question of granting license to sell intoxicating liquors to be used as a statutes of Nebraska for 1901, relating record. to the game law. Section 7, article 2 is in regard to the length of time game or fish shall remain in the possession season. Section 3 article 4. is in regard to the procuring of a license for residents of the state.

person or persons not included within the classes hereinafter designated and limited who shall accept and use any such free ticket, free pass or free transportation in any form (so issued and given in violation of the provisions of this act) for travel on and over any line or lines of railroad, or any part thereof in the state of Nebraska. Provided, however, that nothing contained pass, or froe transportation to persons within the classes hereinafter designated and limited, or the acceptance and use of the same by persons within such classes, viz. Officers, agents, bona fide employes, surgeons, physicians and attorneys at law of such railroad company and their famtlies, ministers of religion, traveling secretaries of railroad young men's Christian associations, inmates of hospitals and charitable and elemosynary work, indigent, destitute and homeless persons, and to such persons when transported by charitable societies or hospitals, und transportation; inmates of national hospitals or state bomes for soldiers and sailors, including those about to which Sokum was charged with asenter and those returning home from such institutions, necessary caretakers injury, was the next case tried. The ployes on sleeping cars, express cars evening and on Sunday a scaled ver-and baggage cars, railway mail service dict was returned. When court conmigration inspectors, newsboys on trains, baggage agents, witnesses at the defendant. tending any legal investigation in which the railroad is interested, and The sale was confirmed in the Retter persons injured in wreeks and physicians and nurs attending thereen, Provided, further, that the provisions prohibit and make unlawful the inter- peal bond being fixed at \$200. change of passes for the officers, agents | The Hall vs Hennessey assault case other railroad companies, nor proproviding relief in cases of general court. panic, pestilence or calamitous visita-

Sec. 2. Any railroad company or corporatin, or any person or persons violating any of the provisions of this act shall be deemed guilty of a mis-demeanor and for each offense, or conviction thereof, shall pay a fine of not less than \$100 nor more than \$1,000. Sec. 3. Whereas an emergency ex-

ists, this act shall take effect and be in force from and after its passage and approval.

Makes a Barrel of Medicine or Lice Killer

Liquid Koal Cures These:

Long F Hog Ob Glander Pink E Influen	olera Co	rn Stalk Disease die vine Plague stestinal Worms sperculosis	Inflamation of B Lung Worm Distemper Cow Cholera Foot Rot	owel
Anthra Texas F Roup Lock-is	vever Pe	ipe Worm bil Evil deken Cholera ind Staggers	Black Leg Abortion in Cows Thrush Catarrh	
Farcy Scours Liqu	M Ni	ange asai Gleet Is as an appetize	Bots Scratches or and vitalizer. No reason it cures, for	

The process of making Liquid Koal requires three days. The process of reduction requires 350 degrees of heat. The compound embraces every Germicide, Antiseptic and Disinfectant found in coal, treated chemically with an alkaline base until every objectionable feature is eliminated, being non-poisonous and harmless. Liquid Koal is made from the following formula: 33% per cent recessive, which embraces cresylic acid; 35% per cent liquid gases, 35% per cent soft soap. Suspended in these is sulphor, borax and naphthol and other remedial agents. Liquid Koal is guaranteed to be at least 20 per cent stronger in antiseptic and germicide agents than any preparation of similar nature on the market.

Hog Cholera *

is a free germ disease, the germ being first found in the alimentary canal and so long as it is confined in that organ it is comparatively harmless. When, however it penetrates the lungs, liver and other organs it causes fermentation, inflamation and destruction of live tissues, farnishing food upon which it thrives and multiplies with wonderful rapidity, in some cases a generation of an hour, causing death to the animal before the owner has discovered that it was diseased. Thus through reasoning two facts stand out clearly: First, that Hog Cholera cannot be treated successfully unless treatment has commenced before the germ has reached the period of rapid multiplication. Second, that a germicide must be administered, and therein lies the whole secret. As we pass down the list of various germicides, we are compelled one by one, to reject them, either because of inefficiency or inadapibility until we reach LIQUID KOAL. And why choose LIQUID KOAL? Because it is the only known germicide that will pass through the stomach into the intestines, and from there into the bleod, permeating the entire system, and still retain its germicide properties. It is a compound embracing every practical germicide, antiseptic disinfectant property found in coal, treated chemically with an alkalire base, until every objectionable feature is eliminated, being non-poisonous and harmless to animal economy. It contains crossel and quaicel. It is these hydro-carbon compounds found in smoke that cures a ham, destroying by its germicidal properties all germ life.

Liquid Koal as a Lice Killer

When diluted with water in the proportions of one part of Liquid Koal to fifty parts water it is the best lice killer on the market. It is not expensive to use because it forms a perfect emulsion with water when mixed in this proportion.

Worms in Hogs

The hog is more affected with intestinal worms than any other domestic animal. These worms are created by impure accumulations along the intestinal tract and generally produced by poorly digested

The nature of the hog and his manner of eating make him more susceptible to intestinal worms than any other animal. Under the present domesticated conditions he is not allowed the use of his natural instincts to obtain the necessary elements that would destroy these intestinal parasites. Being shut up in a pen, he is not allowed to follow the dictates of his nature. The hog that is wormy can neither grow nor thrive for the reason that the worms destroy all the nutrition furnished in the food. Liquid Koal put

in the drinking water in the proportion of one quart to a barrel and given them twice a week will destroy all intestinal worms and keep them free from their formation and multiplication. It strengthens the appetite and tones up the system.

Delmont, December 17, 1902. I have used Liquid Koal for hog cholera and found it all you claim for it and more too. I used it on one that was sick, so sick it could not get up, and the next day it was eating and drinking again. I have never lost a hog since I commenced using it EMANUAL HOHN. Wausa, Nebraska, December 16, 1902. I have used Liquid Koal for nearly a year and find it an excel-

lent article to keep hogs in a healthy condition, and as an appetizer it has no equal. ALBERT ANDERSON. Hartington, Nebr, December 10, 1902.

DEAR SIRS:—I am a user of Liquid Koal and am well pleased

with it, would not try to do without it. I find it useful in a great many ways. I have had no sick hogs since I commenced using it a year age. In my epinion it is the best and cheapest hog cholera preventative on the market today. You can use this as you wish . Anyone wishing to know more about this please write to me. ENOCH ELY.

Liquid Koal is manufactured by the
