other art products. Edouard Detaille, the great painter of war pictures, who is said to be the moving spirit in the exhibition, expresses amazement at the great merit of the work in a majority of cases. A large majority of the objects sent in will be in the display. The contributors range from sublien-tenants to generals. In the marine section captains in the navy have sent sen pieces and midshipmen studies of exotic life and scenery reproduced from nature in Africa and Indo-China. Gen-

erni Michel, the commander of the Sec ond army corps, is represented by a pen and ink drawing of the barracks at Nancy and their picturesque sur-roundings. Colonel Renault of the infantry, who exhibited a portrait of Minister Barthon, is to have one of, General Brugele in the military exhibition. Naval Lieutenant Lacaze contributes a water color, "Summer Evening in Brittany;" Navai Captain Lan-dry, an oil painting, "Near Cherbourg;" Colonel Inspector Lapain, a picture, "Ruins of Chevreuse," and Army Chaplain Levegue, studies from still life.

Those who have seen the collection say that the cavalry artists seem to run to water colors, the artillery to painting in oils, the engineers to sculpture. The infantry are at home in every part of the work, including burnt wood and miniature painting. In the sculpture section the work of two officers who have some celebrity in art circles is described as specially good. They are Captains Allouard and Jacques Fromont-Meurice of the reserve staff.

Simultaneously with the exhibition there will be a "memorial" display of works by artists who have served in the army. It will include the names of Melssonler, who served as lieutenant colonel in 1870, and of Detaille, who was an ordnauce offices on the staff of General Appert.-New York Sun.
