

**To Remove the Temptation.**  
 "It is easy to see what ails you, Ferguson," said his family physician, after a brief examination. "You are smoking too many cigars. You will have to quit the habit entirely, or you will be a nervous wreck."  
 "I'll do it, doctor," said Mr. Ferguson, "although that comes pretty tough. I have just laid in a box of perfectos. Is there anything else you want me to do?"  
 "Yes. Eat plenty of nourishing food and spend as much time as possible in the open air. By the way, Ferguson, there is no reason why those cigars should go to waste. You may send them to me."—Chicago Tribune.

**The Handy Doctor in Your Vest Pocket**

IT'S a thin, round-cornered little Enamel Box—  
 When carried in your vest pocket it means Health-Insurance.  
 It contains Six Candy Tablets of pleasant taste, almost as pleasant as Chocolate.  
 Each tablet is a working dose of Cascarets, which acts like Exercise on the Bowels and Liver.  
 It will not purge, sicken, nor upset the stomach.  
 Because it is not a "Bile-driver," like Salts, Sodium, Calomel, Jalap, Senna, or Aperient Waters.  
 Neither is it like Castor Oil, Glycerine, or other Oily Laxatives that simply lubricate the Intestines for transit of the food stopped up in them at that particular time.  
 The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.  
 Cascarets are practically to the Bowl Muscles what a Massage and Cold Bath are to the Athletic Muscles.  
 They stimulate the Bowel Muscles to contract, expand, and squeeze the Digestive Juices out of food eaten.  
 They don't help the Bowels and Liver in such a way as to make them lean upon similar assistance for the future.  
 This is why, with Cascarets, the dose may be lessened each succeeding time instead of increased, as it must be with all other Cathartics and Laxatives.  
 Cascarets act like exercise.  
 If carried in your vest pocket, (or carried in My Lady's Purse), and eaten just when you suspect you need one, you will never know a sick day from the ordinary ills of life.  
 Because these ills begin in the Bowels, and pave the way for all other diseases.  
 "Vest Pocket" box 10 cents.  
 Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

**At Sea is a Cochin.**  
 It was the French assassin Legd who escaped to sea from Cayenne in a coffin. He managed to get some nails, tar and cotton, and one dark night he got into the coffin shed. He selected a fine, stanch and seaworthy coffin and fastened the lid in order to turn it into a deck, leaving a cockpit sufficient to enable him to crawl in. He calked all the joints as well as he could, and when this work was finished he made a pair of paddles out of two planks. Then he brought out his craft with great precaution. Without much difficulty he reached the water's edge. Silently and slowly he proceeded in the hope of reaching either Venezuela or British Guiana, 150 nautical miles distant. Fortunately and unfortunately for Legd, the steamer Abelle, returning from the Antilles, off Paramaribo picked him up, half drowned and almost in a fainting condition, and a few hours later he was in irons in his cell.

**Good Wearing Qualities.**  
 Donatello is a Greek who has amassed a small fortune in the sale of fruit, and that in the face of the fact that he writes the advertisements which decorate his stand.  
 A recent sample which he produced and displayed is this:

**Open to Conviction.**  
 No rock was ever more firmly fixed than were Mrs. Manse's opinions; but she considered herself of an extremely pliable disposition, with a mind open to conviction on all sides.

"It's the strangest thing to me, the way the rest of the family talk as if I were set in my views," she said one day to her nephew William's bride, with whom she had been laboring on the subject of calling-cards for more than an hour.

"It seems to me you're sort of taking the same tone," she continued, looking sharply at the young woman, "and I don't want you to. There isn't anybody in this world that's readier to be convinced she's in the wrong than I am by people who know more than I. All they've got before 'em, ever, is to prove to me that they do know more than I—and I tell you, my dear, there isn't one of 'em ever been able to in his family!"

**"The Blood is 'The Life."**  
 Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. **Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.**

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 693 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

**FEAR MAKES RUSIA'S ROYAL FAMILY LIVE ON YACHT WHICH DOESN'T CRUISE.**

**THE CZAR AND CZARINA AND TWO POSES OF THEIR SON.**  
 Since the discovery of a plot to assassinate the Tsar, together with his wife, Alexandra, and the little 3-year-old Czarевич, Grand Duke Alexis Nicholaievitch, the imperial family have been spending much of their time aboard their yacht, and although this ship does not cruise, there is an added feeling of safety on the part of the imperial family to see a wide strip of water between themselves and their enemies.  
 The guards at the Tsarskoe-Selo are undergoing a complete change since it was found that one of the soldiers had been in correspondence with the terrorists and had been offered a very heavy bribe to betray the confidence of his officers. He was to allow one of the "reds" to gain access to the apartments of the Tsar and place there an infernal machine that would blow the ruler of the Russians into eternity.

**IDA SAXTON MCKINLEY.**

Mrs. William McKinley has gone to join "the Major," for even after her distinguished husband became President he was always "the Major" to her.  
 Wives and daughters of public men, through their tact, their diplomacy and the clever art of politics, have often materially aided their husbands and fathers in advancing from one position to another. Kate Chase was a better manipulator of political wires than was Salmon P. Chase. Mrs.

IDA SAXTON MCKINLEY.

Fairbanks has welded and is welding a force in the world of politics. The history of the country abounds in incidents of strong, tactful women who have played an important part in the history of men and events.  
 During all the years that William McKinley was prominent in public life his wife was an invalid, and yet it is doubtful had she been well and strong if she would have assisted him in as great a degree as she did by becoming the object of his solicitude and tender

THE MCKINLEY HOME AT CANTON.

care. The death of the McKinley children, prior to the entrance of William McKinley upon his congressional career, was the beginning of Mrs. McKinley's ill health. Her long continued affliction resulted in beautifying and ennobling the lives of husband and wife, and who will say that in her weakness Mrs. McKinley did not serve her country better and was not a greater tower of strength to her husband than had she been a prodigy of endurance and an adroit manipulator of political forces.

The home life of the McKinleys was ideal, and gave the country and the world an example of love and devotion which received the attention of all. The invalid wife made William McKinley a better as well as a greater man. Through all the vicissitudes of a long public career pure and enduring shone the light of that home life which became one of the brightest jewels in the memory of the American people.

While Mrs. McKinley was ambitious for "the Major" she thought most of all of the quiet of the Canton home, with him always near.  
 It was the home life, with her husband always with her, that appealed more strongly to this invalid woman than all the pomp of public life.  
 The cruel death of her husband was a blow from which she never recovered. Ever since that September day in 1901 when he was laid to rest in

**NEW SIDE OF LINCOLN.**

**His Constant Interest in the Military Telegraph System.**  
 Abraham Lincoln has been studied from almost every point of view, but it is a notable fact that none of his biographers has ever seriously considered that branch of the service which which Lincoln was in daily personal touch for four years—the military telegraph; for, during the civil war, the President spent more of his waking hours in the war department telegraph office than in any other place except the White House, says the Century. While in the telegraph office he was comparatively free from official cares and therefore more inclined to disclose his natural traits and disposition.  
 During the last four years of Lincoln's all too brief public career, even until the day before his tragic ending, the writer was most fortunate in being able to see him and talk with him daily, and usually several times a day; for he visited the war department telegraph office regularly, morning, afternoon and evening, to receive the latest news from the front. His tall, homely form could be seen crossing the well-shaded lawn between the White House and the war department with unvaried regularity.  
 In a gray weather he invariably wore a green plaid shawl thrown over his shoulders in careless fashion, and, upon entering the telegraph office, he would always hang this shawl over the

I used many kinds of patent medicines, to no avail. A friend teased me to try Cuticura. At last I decided to try Cuticura when my boy was three years and four months old, having had eczema all that time and suffering untold misery. I began to use all three of the Cuticura Remedies. **Chances for Lighting Companies.**  
 E. L. Harris, United States consul at Smyrna, makes an interesting report on conditions in Asia Minor, and in regard to electricity, says: "The city of Smyrna, with nearly 400,000 population, has no electric railway, electric light or telephone. There are cities all over Asia Minor varying in size from 20,000 to 50,000 inhabitants where there are opportunities of getting concessions for electric light and traction. It is strange for American electrical concerns to turn their backs on this field with the excuse that nothing under a \$1,000,000 concession would attract them."
