

#### CHICAGO.

Midsummer conditions are now entered into, but trade in the aggregate discloses less decline in activity than usual. The volume of distributive trade remains Owner and Holder of Certificate exceptionally wide and the leading indusshow no disposition to curtail pro-

construction.

Leading retail trade has advanced to seasonable proportions, and the clearance sales make substantial inroads upon stocks of lightweight apparel, boots and shoes and headwear. Conservatism in selections of merchandise is confined to a few points where harvesting is poor, but the outlook for business in fall and winter goods appears to be improving.

Grain markets disclose further contraction in prices and buying of the leading breadstuffs, due mainly to the government crop report indicating probabilities of adequate results under normal weather conditions.

The total movement of grain at this port, 7,818,947 bushels compares with 9,789,132 bushels last week and 5,586,-322 bushels a year ago. Compared with those of last year, receipts decreased 12.2 per cent, while the shipments gained 174 per cent. Receipts of live stock were 236,998 head, against 246,157 head last week and 230,447 head in 1906.

Other receipts increased over the corresponding week last year in flour, wheat, dressed beef, lard, butter, eggs, wool and sheep, and decreased in corn, oats, barley, seeds, broomcorn, pork, cheese, cattle and hogs. Compared with the closings a week ago, prices advanced in oats % cent, cattle and sheep 5 cents, lard 74 cents, ribs 121 cents and pork 35 cents, and declined in corn 3% cent and

wheat 41% cents. Bank clearings, \$261,174,200, exceed those of corresponding week in 1906 by

24.8 per cent. Failures reported in the Chicago dis-trict number 25, against 26 last week and 18 a year ago .- Dun's Review of Trade.

## NEW YORK.

Continued favorable weather, coupled with improvement in reorder business with jobbers and in payments on past business, give a more optimistic tone to general situation than seemed possia month ago. That some trade was lost for this reason is, of course, certain, as is the fact that reduction sales have been necessary to move some slow selling goods: but it is noted that cotton goods have again been advanced, that dress fab-rics are selling better, and men's wear, woolen and clothing dealers take a much more cheerful view of the outlook. Telegrams to Bradstreet's show the ef-fect of midsumper conditions.

tries show no disposition to curtail pro-duction, the full employment of machin-ery and available workers being impera-tive to sustain prompt deliveries. Some plants are yet considerably behind on old contracts and the pressure here involves much extra effort and overtime to in-trease outputs. Heavy hardware, machinery, furniture and footwear demands average favorably with those of a year ago, and the prices obtained afford a fair margin of profit. A slight falling off in building permits does not interfere with current operations in construction.
