The following is the total vote cast for the different cadidates for nomination to the office of district judge in fice of the secretary of state: A R Oleson, r. 1,138; J V Pearson, r, 1.066; P M Moody, d, 681; C H Whitney, d, 564; Guy T Graves, d, 1,530; Guy T Graves, pop, 64. A R Oleson will be the republican ca didate and Gov T Graves the demo-pop candidate.

It has been held that an election of candidates to the position of nominees is not an election within the meaning of the constitution, and that therefore a primary election law which makes boy, no provisions for leaving blank spaces on the ballots to enable the voters to write in the names of persons of their choice is not obnoxious to the constitution.

See Cyc. Vol. 15, page 383.

"In making up the ballots for primary election, blank spaces or lines need not be left after the name of the last candidate for each office, and under the title of each office for which candidates are to be selected, wherein an elector of a party can write the name of the candidate of his choice.

"2. Tae primary election law, in so far as it does not require blank spaces to be left in the primary ballots for electors to write the names of their candidates, is constitutional."

The above is the holding of the supreme court of Minnesota in the case of State ex rel vs Johnson, reported in volume 91, North Western Reporter, prge 604 and page 840.

English Schools. About corporal punishment in Eng land two curious facts lie beyond dispute. One is that while the working class and the lower middle class dislike and resent it and will not in general allow their children to undergo it. the aristocracy tolerate it without complaint. The time is coming, one might assert paradoxically, when it will be impossible to flog anybody but the son of a peer. And the other fact is that special affection for the masters who have punished them most.

In Westminster abbey stand side by side the tombs of a master and his pupil. The master was Dr. Busby. who was head master of Westminster school for so long a time as fifty-eight years. Nobody ever flogged so many boys as he. The pupil was the theologian, Dr. South. It is told-I am sure the story is true-that when South came as a small boy to Westminster Busby greeted him with the ominous words: "I see great talents The Dakota City lecture course for in that sulky little boy, and my rod shall bring them out." If so, he was no doubt as good as his word. But when South lay upon his deathbed it was his last prayer to be buried at his old master's feet, and the master and the pupil now rest side by side,-Nine teenth Century.

Keep Your Nerve

the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are

the penalty. You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous. "I take pleasure in recommending Miles' Nervine to those suffering Dr Miles' Nervine to those suffering from nervous prostration, insomnia and melancholy. After several menths suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorer."
