

Coughs of Children

Especially night coughs. Nature needs a little help to quiet the irritation, control the inflammation, check the progress of the disease. Our advice is—give the children Ayer's Cherry Pectoral. Ask your doctor if this is his advice also. He knows best. Do as he says.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pang of this deplorable disease.
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient without which a perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, as last, it uniformly cures all curable cases of this horridly painful and passing away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, those poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with this help. We sell, and in confidence recommend

Considerable excitement was occasioned here Monday night at about 10:29 by a load of drunken Indians on their way home from Sioux City. The team ran away while passing through town and dumped the "befozed" Indians down near John F Sides' residence. Parties heard the disturbance and sent for Marshal Fneston, who could only find one lonely redskin, the others having disappeared in the darkness. The following morning two Indians showed up and secured the release of the brother in distress. Before leaving town it was discovered that one of their wagons contained a dead squaw, whom they said had died at South Sioux City. The general opinion was that she had died from injuries received in the runaway the night before. Nothing much could be gleaned from the Indians, who departed for the reservation with their burden.

Hard or Soft Coal,

Coke or wood, whatever fuel you use, costs money. You have to pay so much for it, whether you get all the heat out of it or not. If a stove wastes the fuel and only a part of the heat is extracted, your fuel bills are higher than they should be. It is therefore profitable for you to get a stove that will get all the heat out of the fuel and not waste it.

The "Genuine" Round Oak and the "Radiant Home" are the stoves that will do it; even the smoke they send out of the chimney is clear, showing that the gases and soot have been burned and all the heat extracted. The comfort of a stove that is everything it ought to be; that gives heat; holds the fire; that lasts and is always good and efficient; is worth almost any cost.

The Round Oak and Radiant Home are such stoves and are a source of comfort in thousands of homes, and they will prove the same in yours. There are imitations, be sure and see the names of "Round Oak" and "Radiant Home."
