WESTERN CANADA A WINNER.

The Crop of 1907 Is an Excellent One-Manitoba, Saskatehewan and Alberta Farmers Doing Well. The interest that Western Canada ins aroused for some years past is growing in intensity. The conditions of the crop of 1907 are such that results can be spoken of with some degree of certainty. The yield of grain will be about 80,000,000 bushels and the price the farmers will realize for it will be unwards of seventy million dellars. The out crop was good in most places, and the crop of barley will be very remanerative. . Those who know of the generally unsatisfactory conditions during the seeding, growing and ripening period in the United States during the past season will look with righteous distrust on any statement intended to give the impression that Western Canada conditions were so much different. Generally, they were not, but the conditions of a highly reeuperative soil, long and continuous synstifue, are conditions possessed by Western Canada and not possessed by any other country on the continent. That is why it is possible to record today a fairly successful crop, when in most other places the opposite is the case. The yield in all grain is less than last year, but the higher prices obtained more than offset any falling off in the yield. Take for instance the Province of Saskatchewan, the wheat erop will be worth \$21,135,000. Last year the same crop was 35 per cent larger and the quality better. The yield was worth \$24,000,000. Oafs and barley are very important factors in all three central provinces. At Gladstone, Manitoba, returns from one farm were \$27 per acre from the wheat land, \$35 per acre from oats, and \$30 per acre from barley. The yield of wheat at Dauphin, Manitoba, was 20 to 24 bushels to the acre, but not of a very good grade, but the yield of barley in that section was good and so was the quality nd price. At Mendow Lea, Manitoba, 15 to 20 bushels to the acre were threshed, bringing a round dollar on the market. At Oak Lake, Manitoba, on some fields where 21 bushels were expected, 12 and 15 was the result: others again where 20 was looked for some reason or other tan leather keeps gave 22 to 25. One special patch south softer than black leather. One ex- of town on J. M. McFarlane's farm planation of this may be that in the went as high as 50 bushels to the acre. greater number of cases the blackening At Sheho, Saskatchewan, outs yielded used for polishing black boots has from 60 to 65 bushels to the acre. Sam

> troops on and near the walls were fully W. Bibby threshed 97 bushels of oats 2,000 Filipinos, and the 5,000 Americans were closely massed, so that within the space of a quarter of a mile there were three bodies of soldiers, numbering 12,000 or more. A single shot, said General Greene, might have precipitated a fight which in five minutes would cost more lives than the entire war up to that date. These illustrations taken from widels For a moment General Greene was puzzled. Then he remembered how he had often seen a platoon of policemen sweep by sheer mass an unruly mob out of the street, and he determined to use his Nebraska regiment, nearly every man of which was six feet tall and burly in proportion, to clear the road of the little but perplex-\$2 Filipinos. He spoke to the colonel.

The Filipleos were swept back into the gutter. The second company repeated the maneuver, and shortly the whole regiment lined the roadway like Favorites a wall, with the little brown brothers behind it looking up with puzzled consternation at the towering soldiers of Uncle Sam, while the other regiments, led by General Greene, marched past and entered the walled city without "God bless the man who first invented firing a shot, greatly to the amusement of the Spaulsh troops upon the So Sancho Panza said, and so say I;

RATEROAD BUN BY ONE MAN.

He Acts as Conductor, Baggage Mass ter and General Manager. "During a recent trip through south ern Maryland, where I spent a week of my vacation," said a New York business man to a Press reporter, "! had occasion to ride on the oldest little railroad in America. This road, branch of the Washington and Pote And whether larks have any beds at all! mae Railroad, runs from Brandywine in Charles County, to Mechanicsville in St. Mary's County, a distance of eighteen miles. The single train which runs each way daily, is made up of the engine, one freight car and one combination passenger and bangage car. The schedule seems to be liberal and no burry is ever manifested in train movements.

> "The conductor of the train, who also acts as baggagemaster, is general manager of the road. He issues orders as general manager and obeys them as conductor. When as conductor he thinks the schedule should be changed he notifies the general manager-him self-who, if he thinks it advisable, makes up a new schedule and Issues running orders accordingly to the conductor-also himself-and the latter obeys. The engineer is master me chanic, chief of transportation and overseer of the roadbed. The fireman drives the express wagon between trips. There are no ticket agents along the route and the conductor collects fares, as on a street railway, punching a hole for each fare in a slip of cardboard. Then he goes into the baggage car, sees that the trunks are properly delivered and looks after express and mall packages.

"The road has no stations between Brandywine and Mechanicsville, and If a passenger desires to leave the train at may of the dozen villages between the main points he or she must notify the conductor of such intention. A printed eard on the back of each car sear renda:

"'Passengers wishing to board the train between stations have only to stand near the track, hall the engineer, and he will step.""

Two Ways of Looking at It.

There is a young artist in Washington who classes himself as of the impressionistic school, and who, baing somewhat out in drawing, generally makes up for his lack of technique spreading color recklessly and counting on distance for his effect,

At an amateur exhibition he once hung one of his most extraordinary performances.

"Well," said a friend, whom the artlat had taken to see the work, "I don't want to flatter you, old chap, but that is far and away the best stuff you have ever done. I congratulate you."

Much pleased, the artist was recelving the compliment with becoming modcity, and General Greene and General esty, when he chanced again to glanes at the picture-and turned very red. The committee had hung it upside of the little American army, while Gen- down!

Hurrying to the head of the committee, he was about to launch into a loud complaint, when he was informed of the good news that an hour before the with a Nebraska regiment holding the picture had been sold for \$61. The original price mark had been \$19 .-Limincott's.

Psychologically Explained Mrs. Flaherty, who earns her living and maintains two clean little rooms In an uptown tenement by going out to do washing and day's work, has been a widow for many years, and entertains a strong prejudice against marriage for any but the young. "Tis all right at General Greene to enter and help to that time o' life," she maintains, "but not for old people with gray hairs. Then surrender, which he did, and returned 'tis onsuitable and the height o' foolishness." Holding these opinions as she does, it was a severe shock to Mrs. woods had ceased, and a body of well- Flaherty to learn that one of her best customers, a widow of three score and ten, was about to be married for the over which our troops must march to second time. Almost tearfully she con-

achieve the occupation. It looked as fided her sentiments to another patron. "Think of it! Her a-fixin' all them fine clothes and takin' as much pride but it could not be proved, and has not in it as if she was to be a bride of been proved to this day. Mounting his twenty instead of an old woman that'll never see seventy again! Why," and Filipino commander and asked him her voice dropped to an awed whisper. "at her time o' life I believe 'tis the the road. He replied, in the Spanish ravin' o' death is on the woman i"equivalent for the American phrase, New York Times.

In the life of William Stokes, weltseemed clear that the blockade of the ten by his son, it is told how Stokes was sent over to Dublin during the the city with our troops, hoping for great famine to show the people how to make soup. Stokes asked a starving beggar why she did not go and go: some of the soup that was being freely 5,000 in number. There were perhaps | distributed.

"Soup, is it, your bonor? Sure it isn't soup at all." "And what is it, then?" inquired

Stokes. "It is nothin', your honor, but a quart of water beiled down to a pint to make

it sthrong!" This is the soup malgre which Hogarth caricatured in his picture of the French troops at Calais,-London Standard.

Feminine Nerves.

There are nervous women; there are hypernervous women. But women so nervous that the continual rustle of a allk skirt makes them nervous-no, there are no women so nervous as that !

and the orders followed: "On right When a woman doesn't know her into line, march! Port arms!" The own mind it is time she sought an inleading company wheeled to the right, troduction,

Providing the Secution.

Egg-rolling on the White House lawn has long been an Easter custom in Washington. So has it been a custom in a neighboring Sunday school to give Enster eyas to the children.

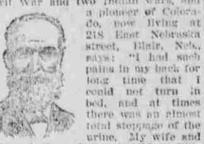

Last Easter the superintendent of the school startled bls hearers by this ans nonneement: "Now, children, we will sing hymn

number ninety-three, Beetn, my soul, the exalted lay,' after which I will distribute the eggs."

The Angora goat faraishes most of the hair which adorns ordinary dolls. This product is valued at \$10,000,000 a year.

VETERAN OF THREE WARS.

FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever

produced from drags. In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacions than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of these serious ills peculiar to women, entitles Lydia E. Pinkham's Vozetable Compound to the respect and confidence of every fair minded

person and every thinking woman.

When we need are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, reneral debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound,

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lycke E. Pink-

ham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydin E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

Nothing Too Good For the American People

There is NOTHING TOO GOOD for the America people—that's why we started to make Cascarets Candy Cathartic. The first box made its appearance in 1896, and the enthusiastic endorsement of the people has been bestowed upon Cascarets ever since The sale today is at the rate of OVER A MILLION

BOXES A MONTH, proving that the American people recognize, that what is BEST FOR THEM is none too good.

Why this enormous patronage?
The answer is simple: Cascarets are pure, clean, sweet, mild, fragreat, harmless but effective little tablets for the treatment and cure of Constipation and all Bowel Troubles. They are put up in reat little enamel boxes, easy to buy, easy to carry (in vest-pocket or purse), easy to take and easy of action, always reliable, always the same, they "work while you sleep and wake you up feeling fine in the morning.

They not only regulate the movement and stimulate the muscular walls de the bowels, but they keep the ENTIRE CANAL CLEAN and antiseptic, forcing out and destroying all disease germs that breed in the accumulated fifth unless promptly and regularly discharged. Therefore, they are a great preventive disease, and may be taken continuously as a precautionary measure.

The new Pure Drugs Act, adopted by Congress on June 30, 1906, and is effect January 1, 1907, is a GOOD LAW and means better and PURES drugs for the American People. We endorse it and will live up to it is SPIRIT and LETTER,—an easy task, as we have always been actuated by the same principles and no changes are required in our formula or pack

We adopted OUR OWN PURE DRUG LAW in 1896 when the first box of Cascarets came on the market and have lived and worked and produced under it ever since.

To-day, after a record of nearly 100,000,000 boxes sold, Cascarets STAND the greater in PURITY, QUALITY and MEDICINAL MERIT than any other preparation for Bowel trouble in all the world.

This should be a great argument for any one, to try Cascarets AT ONCE, and be healthier and happier for it. Some people have CHRONIC CONSTIPATION with all the horrors derived from it; others have HABLITUAL CONSTIPATION from carelessness and neglect, but nearly EVERYBODY has OCCASIONAL CONSTIPATION, which, if no

promptly taken care of is liable to result in its degeneration into the worse forms and cause great suffering and perhaps death. Cascarets, if taken patiently and regularly, will remedy all of these awful troubles, but if taken promptly at the very first sign of an irregularity of the Boweis, will act as the FINEST PREVENTIVE ever discovered

and will keep all the machinery running in good order. We advise you to get a little 10c box of Cascarets TO-DAY and carry it in your purse or vest pocket. Take one when you feel anything unusual about your bowels. Your own druggist will sell you the little box, under

GUARANTY of satisfaction or money refunded. All druggists, 10c, 25c, 50c.
