This tract of land is County clerk having received notice located near the town of Iatan, on the east of Hereford, in the Upper Panhandle and some 200 miles directly west of Fort Worth, the best live stock market and largest packing house center south of Kansas City.

This purchase consists of all the open lands, and some improved, in a solid block of 63 sections, the purchase aggregating about 25,000 acres. The remaining 75,000 acres in this tract is in improved farms with owners or tenents living upon and farming them. The rental value of these improved farms is from \$2 to \$4 per acre cash rent. This is positively one of the most desirable spots in all western Texas. The country has a nice, smooth surface, the soil a rich chocolate colfree from sand, alkali, gypsum or blemish of any kind. The elevation is about 2,000 feet or about 1.500 feet lower toan the Upper Panhandle. The rainfall in this region, as shown by the government reports at Abilene, averages over 30 inches, with nearly 25 inches falling during the crop
