The difference between Mr. Tuft's promise of tariff revision and Mr. Bryan's pledges in the same direction is that Mr. Taft if elected will be to position to redeem his pledge, while Mr. Bryan if elected would be powerless to accomplish anything with Republican Senate arrayed against his free trade plans.-Omaha Red.

A democratic paper, speaking o Candidate Bryan's recent campaign tour of Iowa, tells of it under a big headline which reads: "Bryan pleased with the outlook in Iowa." which adds greatly to the appearance doubt was pleased with the "outlook" as everybody else is also pleased His "outlook" was from a car window and Wm Armour and wife returned home from it he saw the prosperous Tuesday from their South Dakota farms of Iowa, where lands have trebled in value since he began runbing for president; he saw the farmers' the Henry Fisher home on Friday even-irg. fat steers that are bringing \$6.50 to \$7.25 as against \$3.60 to \$4.00 in the last democratic years; he saw hogs at politely delivered the third degree to Milton Joseph Forshoe. Milton is he was shouting for free silver; he saw corn at 70 cents as against 10 cents under democratic administration; he saw wheat at 95 cents as against 35 and 40 cents under his brand of free trade. Why shouldn't he be pleased with the to join with Candidate Bryan in "ou'look?" So is the farmer pleased abolishing this service, reducing the Holler for Bryan and McAllister any with the outlook for continued farm number of "officeholders" thereby and prosperity because the farmer intends The cattle that were pastured on the reservation the past summer were returned home the past week and are provided good markets for the farmers, produce.

HIS PLATFORM THREATENS RU-RAL DELIVERY AND AGRI-CULTURAL PROGRESS.

Denounces Expansion of Departments Which Work Exclusively in the Interests of the

How many Nebraska farmers wish to see the Free Rural Delivery of Mail crippled and perhaps abolished and the great work of the Department of Agriculture hampered and possibly reduced to a stagnant condition and all real progress in that department stopped? As many as wish such a result in the two great departments of the government devoted exclusively to the daily interests of the farmer. stock-raiser and horticulturist should vote this year for Candidate Bryan and his democratic platform, because in that platform, made and approved in every word by Candidate Bryan, do that very thing.

That this statement is true and is not mere idle criticism is amply proven by the official record on which Candidate Bryan himself has placed the seal of his personal approval.

It is a matter of common knowl edge that the democratic platform this year was prepared under the personal supervision of Candidate Bryan and had his approval in every word. line and statement before it saw the light of day in the democratic national convention at Denver and was there adopted with the full knowledge that it was the personal platform of Candidate Bryan. What does this democratic platform say in relation to the matters of vital daily interest to the men and women who make their homes and spend their

lives on the farm? Under a section of the democratic national platform denominated "Officeholders," the platform undertaking to denounce the administration of the republican party in keeping abreast of the progress of the country and extending benefits to the agricultural classes of the nation, says:

"Coincident with the enormous" "increase in expenditures is a" "like addition to the number of" "officeholders. * * * We de-" "nounce this great and growing" "increase in the number of" "officeholders as not only unnec-" "essary and wasteful, but also" "as clearly indicating a deliberate" "purpose on the part of the ad-" "ministration to keep the repub-" "lican party in power at public" "number of its retainers and de-"pendents. Such procedure we" "declare to be no less dangerous" "and corrupt than the open pur-" "chase of votes at the polls."

Now let the Nebraska farmer examine this declaration carefully in the light of the facts, to determine exactly what it means, remembering that Candidate Bryan is promising in every speech he makes to carry into effect, if he is elected, every word found in his platform.

To know what he means it is nec-

essary first to learn wherein has

been the great increase in "officeholders" in recent years which Candidate Bryan and his platform so roundly and viciously condemn and by plain inference threatens to abolish. That "increase in officeholders" in recent years has been very largely in the two great departments of the government conducted exclusively for the benefit of the clusively? None but the thoughtless American farmer; the Rural Free Delivery of Mail and the Department of Agriculture. Every rural letter carrier and every employee of the Department of Agriculture counts in making up the government list of "officeholders" and it is the growth and expansion of these great departments established by the republican party for the benefit of the farmer that Candidate Bryan condemns and threatens to reduce to a condition of wreck and ruin. The facts obtainable amply prove the case. In 1896 there were no rural delivery carriers, no "officeholders" to be counted, because in spite of republican legislation establishing this service for the farmer a democratic president refused to avail himself-of the appropriation made for this purpose. The republican party took hold in 1897, fostered and expanded the rural delivery and on June 30th, 1908, 39,227 employees were engaged in the R. F. D. service, delivering the mail daily to millions of our farm residents. This added over thirty-nine thousand "officeholders" to the list of government employees in the twelve years and per year gives Candidate Bryan his opportunity in 1908, to denounce the increased number of "officeholders" and the increased expense.

Does any Nebraska farmer wish to join with Candidate Bryan in saving" the money it costs? For a her brother. genuinely crazy idea of "economy" is not this position of Candidate Bryan entitled to first place?
