LABOR LEGISLATION

Republican States Have Been Liberal in Legislation for Labor.

Democratic States Have Done Little to Make Labor Conditions Better Within Their Bounds.

It is a fact that every important step for the benefit of American labor has been taken either by a Republican Congress and administration, or by the Legislature of a Republican State, of course with the consent, and sometimes by the advice, of the State executive. Democratic Congresses have been notably negligent in this respect, and Democratic States have either done nothing to make labor conditions better within their bounds, or have slowly and reluctantly followed at a distance in the trail of Republican reforms.

State Legislation.

The States have control of labor legislation within their respective bounds, federal authority being confined, so far as labor is concerned, to the District of Columbia and the territories, federal reservations and federal public works. The story of labor legislation shows that nearly all labor reforms originated in Republican States, and at the present day the Democrats are far ahead of the Democrats in the enactment and enforcement of laws for the welfare of men and women and children who work for a living. Twenty-six out of thirty Republican States have labor bureaus, and only seven out of sixteen Democratic States have similar bureaus, without which labor laws are often dead letters. Twenty-three Republican States have factory inspectors to see to the enforcement of the factory laws. Only six Democratic States have factory inspection services. Fifteen States—thirteen Republican and two Democratic—have free employment agencies. Eighteen States have laws on their statute books prohibiting labor on government works or public contracts for more than eight hours a day. Of these States sixteen are Republican and two Democratic. Four Republican States and one Democratic State have laws declaring eight hours to be a legal working day in the absence of a contract. Twenty-seven States prohibit the employment of children under fourteen years of age in factories. Of these twenty-three are Republican and four are Democratic. Laws limiting the hours of the employment of children in factories or stores have been enacted in twenty-four Republican and thirteen Democratic States. Eighteen Republican and ten Democratic States prohibit night work by children. Twelve Republican and three Democratic States prohibit the employment of children in operating dangerous machinery or cleaning machinery in motion. Fifteen Republican and six Democratic States limit the hours of labor of women. It should be noted that twelve of the Republican States which limit women's hours of labor have factory inspectors to see that the law is obeyed, while only three of the Democratic States make such provision. In twenty-three Republican and ten Democratic States employers are required by law to provide seats for female workers.

Twelve States have enacted legislation intended to effect the extinction of the sweatshop system, with its degrading and revolting accessories. Of these twelve States ten are Republican and two Democratic. Seventeen Republican and five Democratic States have laws requiring the payment of wages weekly or fortnightly, or in some instances, prohibiting a longer period than one month between pay days.

Trade Union Labels.

Fourteen Republican States and only one Democratic State—Nevada—have laws in force prohibiting employers from discharging persons on account of membership in labor organizations, or from compelling persons to agree not to become members of labor organizations as a condition of securing employment or continuing in their employ. Forty States have passed laws allowing trade unions to adopt labels or trademarks to be used to designate products of the labor of their members, and prohibiting the counterfeiting of the use of such labels or trademarks by unauthorized persons. Of these States twenty-eight are Republican and twelve are Democratic.

The foregoing presents for consideration by intelligent, patriotic labor substantial facts and figures taken from the statute books of the several States. No platitudes can upset them. They prove the records of the Republican party and of the Democracy on the labor issue, and they must convince every reasonable reader that the Republican party has not only brought American labor up to its present honorable standard, but that labor can look only to the Republican party for assurance of protection and prosperity in the future.

Would Retrain Unlawful Trusts.

Mr. Bryan asks me what I would do with the trusts. I answer that I would restrain unlawful trusts with all the efficiency of injunctive process and would punish with all the severity of criminal prosecution every attempt on the part of aggregated capital to suppress competition.—Hon. Wm. H. Taft, at Columbus, Ohio.
