# Dakota County Herald <sup>3</sup> valuable cows by the falling over of a straw stack which the cattle had undermined....Mrs E J Warner and The Danish Brotherhood will FORN H. BRAM, PUBLISHER. Subscription Price, \$1.00 Per Year.

A weekly newspaper published at Dakota City, Nebraska. Permission has been granted for the ransmission of this paper through the maile as second-class matter. Telephone No. 45.

A Merry Christmas and a Happy New Year to all, 18 the wish of The Herald.

The chemists of the United States department of agriculture have at last solved the problem of how to turn into paper the millions of tons of cornstalks wasted annually. After years of ex-periment the department now reports that the vast quantity of material here-tofore considered valuess and destroy-ed every year by the farmers of the country can be utilized, thus saving much of the remaining wood reserve of the United States, and bringing about the manufacture of paper from an an-nual crop. The belief is freely expressed by the scientists who have been conducting these experiments that when proper machinery is brought out, and the farmers grow cornstalks in lived together until April 1908. Love localities where they can be moved cheaply to the mill, the cost will be fully 50 per cent less than paper now manufactured from wood. No special growth of corn is required.—Scientific American

The United States leads boot and shoe exporting nations of the world, the value of exports in 1908 aggregating \$11,470,000, according to the bureau of statistics. #### About a Steel How Range

as substantially and well made as a Round Oak Stove? With what you know about the Round Oak you would naturally think it a pretty good range, wouldn't you?

Well, it is; it is built the Round Oak way and it is named the Round Oak Chief Steel Range. If you wanted a range it wouldn't make much difference what sort you bought if they were all alike, but they are not. There is as much differene in them as there are in the people, who use them. If you want a Range that will give you perfect satisfaction, save you fuel every day you use it and is honertly made from best materials by experienced and careful labor; a range that will last you a lifetime and at the same time can be bought for a reasonable price, you want the Chief.

Nothing in the country is equal to it for solid, substantial quality. True economy means to buy the best. You are invited to call in and see it.

The Round Oak Stoves are so well and favorably known in this vicinity that nothing further need to be said about them.

Tcu Baird marketed hogs at Homer Wednesday. C J O'Connor is buying grain on the track. using a small elevator. Some of the material has arrived for the Wigle Creek telephone line. Owing to quicksand, progress on the new deep well at the plant of the Crystal lake distillery is rather slow.

The well was started over a week age and is only 100 feet deep now. It is and is only 100 feet deep now. It is the intention to go down until a sat-isfactory quality of water is reached, and it is thought that this will be at about 375 feet. Another mill was in-stalled in the sate of the sate about 375 feet. Another mill was in-stalled in the plant this week. A carload of charcoal was unloaded at the plant this week.

Petitions are being circulated in Sloux City and quite liberally signed, asking the traction company to extend its South Sioux City line to Crystal lake. It has been persistently rumored for some time that arrangements have been made whereby the traction com-pany is to equip the Foye line with electricity as far as the lake and run its cars over the Foye track during the outing season. It is known that such a proposition has been made, but whether an agreement was reached is Mrs John McQuirk visited a couple of days in Sioux City with Mr Mc. Quirk's sister, Mrs Dave Monroe, last week. announced at the time that the company would use electricity on a pea-tion of its road.

An electric light and power with been placed on poles from the end the traction line to the plant of t Consumers Ice company at Crysta lake, and power will be turned on nex Monday. The ice company has in-stalled a large motor to run its endless chains, which convey ice from the endless chains, which convey ice from the lake into the houses and cars. Electric lights will be distributed about the place and the company will not lose any time on account of darkness. Sev-enteen houses will be filled by the company this winter. They will hold about 40,000 tons of ice. In addition to this orders for about 75,000 tons of ice to

be shipped over the Burlington, been received. The place will buay one as soon as ice gets thic enough to store. The warm, wet weath er of the past week has injured th prospect for an immediate crop.
