How About a Steel Range

as substantially and well made as a Round Oak Stove? With what you know about the Round Oak you would naturally think it a pretty good range, wouldn't you?

Well, it is; it is built the Round Oak way and it is named the Round Oak Chief Steel Range. If you wanted a range it wouldn't make much difference what sort you bought if they were all alike, but they are not. There is as much differene in them as there are in the people, who use them. If you want a Range that will give you perfect satisfaction, save you fuel every day you use it and is honertly made from best materials by experienced and careful labor; a range that will last you a lifetime and at the same time can be bought for a reasonable price, you want the Chief.

Nothing in the country is equal to it for solid, substantial quality. True economy means to buy the best. You are invited to call in and see it.

The Round Oak Stoves are so well and favorably known in this vicinity that nothing further need to be said about them.
