The many Salem friends of Fred W. Beerman and Miss Agnes Ellen Ralph were pleasantly surprised to learn by announcement during last week that they had already made a months journey on the matrimonial sea. Under cover of the darkness of the night they hid themselves to the Lutheran parsonage on Monday, March 1st, and were made husband and wife by the Rev. W. S. Oberholzer. They are now receiving the hearty congratulations of their large circle of acquaintances and if good wishes will help them they will surely have a happy and prosperous career. The Herald and its large constituency joins all in these felicitations. They will go to house keeping on the Meadow View farm at Coburn where they will be "at home" after May 1st.

Shortly before six o'clock Sunday evening smoke was discovered issuing from the coal and hay sheds adjoining the Fields & Slaughter Co's. elevator. The alarm was immediately given and the people turned out and made a heroic effort to save the property of the elevator company. The fire when first discovered was in the west end of the coal shed, but before water could be got to it the whole shed was on fire, and one corner of the elevator was threatened. After an hour's hard fighting, during which time the driveway to the elevator was on fire several times but was renewed by drenching it with water by the bucket brigade, the fire was finally gotten under control. The loss to the company is estimated at \$1000, and is confined principally to the coal and hay shed which contained about forty tons of coal and a carload of hay. The loss is covered by insurance. The debris is now being removed and work will be commenced Monday on the erection of a new coal shed.

To Make Cloth Water-Proof

"Take eight ounces of sugar of lead, eight ounces of powdered alum and two and one-half gallons of lukewarm water," says Woman's Home Companion for April. "Mix in a tub, and let stand for twenty-four hours. Stir thoroughly when first mixed and occasionally for the first hour, to dissolve the ingredients. Take the garment (overcoat, suit or dress, anything of woolen or cotton material), brush thoroughly, and let soak for twenty-four hours. Take out, let drip until almost dry (don't wring), hang in the air until dry, then press as usual. Water will fall off as from the proverbial duck's back. One can use a suit treated in this way, on hunting trips and in a driving rain, and come home dry. It does not destroy or interfere with the ventilation or injure the fabric in the slightest degree. The quantities as given here cost about twenty cents, and will successfully water-proof an overcoat and suit, or in proportion."

The Last Call

Has your school gotten those delegates elected to the county convention which meets April 14, 15 at Dakota City. The time is almost here and your school must get its share of the good things. Will your school be a banner? Only three things. (1) Send in the offering asked for by the county. (2) Have a delegate at this county convention. (3) Send in a report of your school.

These three things make a banner school. We ought to have every school in the county banner schools.

This convention is undenominational and yet all denominations in our county are members of it. If you are not there and things don't go right it was, perhaps, because you were not there. We need you, you need us. Come. Sincerely yours,

ELIZABETH S. HAASE,
County Secretary.
