A Last Embrace, As a well known New Yorker! stepped from a Michigan Central train in Chicago, a handsome young lady skipped up to him, threw her arms rapturously about his neck, and kissed him many times, saying, "Oh, papa, I'm so giad you've come!" The old gentleman throw both arms around her and held her firmly to his breast. Soon she looked up luto his face, and horror stood in her eye. "Oh, my, you're not my papa!" she said, trying to free herself from his embrace. "Yes, I am," Insisted the old gentleman, bolding her tightly; "you are my longlost daughter, and I'm going to keep you right in my arms until I get a po-Heeman." When the officer came and found the old gentleman's diamond pin | relation of its own imagnetism and the in the girl's hand, he said. "That's a earth magnetism. new trick here." The human body is a great living magnet, almost as descentely poised as a magnetic needle in the compass box. When the compass needle is placed in an east and west direction at once the needle begins to try to get in a north Is because the magnetic waves in passing from the north pole of the world needle into the line of least resistance, lengthwise, so the magnetic forces of the needle and the earth may be in harmony,

If you are sleepless, or rest poorly, look after the arrangement of your bed. Turn its head to the north. Get your body in line with the magnetic polar earth waves and have no magnetic counteraction in your nervous make-up by the earth currents running across your magnetle organism. The proof of a medicine is its results.

Try this north and south body lineup and note results that will make you marvel if you are nervous and
