He said the bird was a magnificent specimen and that in all probability he would have it mounted.

Sioux City Daily Journal, 13th: The police were asked last night by Will Ebel, who lives near Dakota City, to find the two men who were driving an automobile runabout, No 5830, yesterday afternoon. Ebel said that he was driving a four horse team to a road drag when the automobile came up behind him and frightened the horses, three of which were colts. According to Ebel, he gave the automobilist plenty of room to pass, but instead of slowing down he said they came up close behind him, causing the horses to plunge and jump. In the mixup, the animals became tangled in the harness and fell down. Instead of stopping the automobile and helping him out of his difficulty, Ebel said they turned it around and came to Sioux City another way. Ebel was unable to see the number of the machine but telephoned a description of the automobile and its occupants to the tender of the combination bridge, who secured the number when the car crossed into Sioux City. Ebel said that his horses were badly scratched and that he had to cut the harness to get them untangled.
