Later Leguia rode through the streets, which were closely guarded by cavalry, and assured the townspeople and tradesmen the danger was passed.

KANSAS NOW A LIQUOR SAHARA.

Bucket Shops Kicked, Streams Purified, Danny Dreamer Barred.

Kansas is as dry as laws can make it now. The new prohibitory law that stops the sale of liquors by druggists went into effect at midnight Saturday. The Kansas statute book appeared Saturday morning, and the acts of the Legislature become effective on its publication. All bucket shops in the State will have to close. The new labor law bars child actors from the theaters and all boys under 14 years of age from the measenger service. Interurban cars must be equipped with additional conveniences. Cities will be required to preserve the purity of the waters of the streams in their vicin-

> Its enthusiasts say alfalfa will revo-Intionize the food question, and that it will solve the serious problem of supplying the world with flour a few decades hence.

The alfalfa is carefully selected, and the bright and tender leaves and a small portion of the upper parts of the stalks are ground together. Then they are run through a bolting machine that turns out a meal almost as fine as flour and having a rich brown color. The meal is then bleached. This having been done, it is ready to go to the culluary department of the college club. There it is cooked into a large number of palatable dishes.

There are alfalfa gems, and they are so tender and rich when properly cooked that they almost melt in the mouth. The most delicate muffins cannot compare with them. They are light, palatable and easily digestible. Experts who have studied their value as food say that a man can make a meal on alfalfa meal muffins and do more work and with less fatigue than he could if he had eaten beefsteak, bread and potatoes. Cakes of all kinds are made of alfalfa flour, the recipes being similar to those employed in the construction of the cakes in which

white flour plays the leading part. For everyday bread alfalfa flour has been tried at the club. It is darker than wheat flour. The taste is most delicious, being a little sweet, and is much more palatable if a little sugar is added to the dough before it goes into the baking pans. In making bread, yeast is used in about the same proportions as in the manufacture of the bread made from wheat flour.

QUAKER CITY STRIKE RIOTS.

Mobs Beat Imported Crews in Philadelphia-Trouble Spreads.

Car-strike riots were renewed in Philadelphia Thursday, following an outbreak the previous night, in which nearly 100 persons were injured. This disturbance was in northeast Philadelphia, the scene of the riots, when a crowd attacked two trolley cars which were manned by imported workmen. The windows in the cars were broken, the car crews were seriously beaten, and many persons in the crowd were hurt by flying bricks. Several arrests were made. As the result of the disturbances in Kensington Lieut, Sykes, commander of the police in the district, was suspended from duty and will be tried before a police board on a charge of failing to lead his men against the rioters. Sykes, it is said, did not leave the station house during the rioting. All of those injured in the serious rioting will recover. About 100 are under treatment in hospitals. The station houses were filled to overflowing with
