

Pierida and Cuba Storm Swept-\$2,000,000 Damage Done at Key West.

OTTY IS UNDER MARTIAL LAW

Nine Cigar Factories Destroyed-Plundering Begins as Soon as Wind Slackens.

As a result of the hurricane which struck the southern coast of Florida Monday morning Key West is a mass of wreckage and the damage to property is estimated at \$2,000,000. Mar tial law was proclaimed by the mayor, and the Key West guards are patrolling the city. The United States government has been asked to dispatch troops there without delay to assist in patrolling the storm swept area. Conditions are chaotic and few persons remain in their homes, hundreds of which either have been totally wrecked or damaged. It is thought that many lives have been claimed along the coast.

The storm reached its height at 1 o'clock in the afternoon, when the wind had an estimated velocity of 100 mlies an hour. There was a hard, steady blow from 8 a. m. to 3 p. m., when the wind began to dle down, and by 4 o'clock the center of the hurricane had passed.

Besides the several score of residences either wrecked or blown from their foundations, nine factories were partly destroyed, including the Havana-American, Martinez, Nichols, Ruy Lopez, Manuel Lopez, Fleitas Toreys, Cortez, and Wolf cigar manufactories. Two of the city fire engine departments were destroyed and the firemen narrowly escaped. The top of the First National Bank was blown off, the postoffice damaged, and two running gears of the government coaling station were wrecked.

As soon as the wind had subsided, and full order books of manufacturers BALLINGER FOR SAVING OF LAND plundering began. The city police the only appa ent bars to an even force was unable to cope with the sit- wider distribution in most wholesale uation, and the mayor decided to take- lines. Wholesale trade in staple lines stringent measures to suppress the ulation of more than \$20,000, about and salvage companies.

LOVE LEADS TO PENITENTIARY.

Woman, Convicted of Stepdaughter's Murder, Accuses Husband.

On behalf of Mrs. Rae Krauss, of Hartford City, Ind., now serving a life transportation than for two years past.

CHICAGO. The Weekly Review of Chicago Trade, compiled by R. G. Dun & Co., says: Operations in the leading activities have become so expanded it is not surprising that the volume of payments through the banks are now seen to be averaging almost \$50,000,000 each business day. Conditions generally exhibit remarkable strength throughout the leading industries and there is no exhaustion in the commitments adding to the assured accumulation of forward work in manufacturing, Increasing demands for money and more extended movements of breadstuffs, provisions, factory outputs, raw materials and general morchandise emphasize the underlying strength and confidence felt.

in the future. Fall transactions make a notable comparison with the best previous years in production and distribution. Lake traffic includes tonnages reaching new records, while the earnings of Chicago steam roads also furnish favorable comparisons. Despite the installation of new equipment it is found more difficult to obtain an adequate car service in the central West, and reports indicate that deliveries of heavy materials fall behind the dates promised, owing to the unexpected demands upon available facilities. Transactions in the wholesale branches of staple merchandise present more numerous reservations for distant needs. Bank clearings, \$293.915,369, exceed

those of the corresponding week in 1908 by 23.8 per cent, and compare with \$249,645,775 in 1907.

Failures reported in the Chicago district number 24, against 29 last week, 25 in 1908, and 24 in 1907. Those with Habilities over \$5,000 number 7, against 11 last week, 5 in 1908, and 9 in 1907

Summary of the Evidence. Summed up Comander Peary's evi lence tends to show:

That Dr. Cook's explorations north never took him beyond the eighty-second parallel.

That he proceeded northward no farther than one day's march from Cape Thomas Hubbard.

That his companions, two Eskimo boys, the oldest only 19, and his outfit, twenty dogs and two sleds, were utterly insufficient to cope with the dangers and hardships of the dash across bard to the pole. Gibson was overland, and the station

sent a letter to Charls R. Crane, of Chicago, who was in Washington, notiwould be accepted. Mr. Crane already

And when we find that our work is is also suffering from the cold. School attendance has been cut to half. Three nches of snow fell at La Crosse, Wis, lower Michigan received its first in-

stallment of real winter Monday. With the temperature hovering between 30 and 40 degrees, snow fell intermittenty over almost all of the lower part the State. A thirty-mile-an-hour wind prevailed and made the snow flurries resemble winter blizzards in many places. A temperature of 28 degrees above zero prevailed over all of Kansas, the western half of Missouri, northern Oklahoma and the Texas pan-handle. A killing frost was expelenced in the southwest.

MORSE GOES BACK TO JAIL.

High Federal Court Approves Sentence-Will Ask for Pardon. Charles W. Morse, ice king and shiping trust builder, spent Monday night in the Tombs, New York, facing the

near probability of spending the next fifteen years in a still more irksome place, the federal prison at Atlanta. The little man who found it so easy

to juggle millions that he was able to pay back \$7,560,000 of his \$8,000,000 liabilities while actually under sentence and free only on bail, again learned that there was one institution which was his master-the law. A unanimous decision of the United States Circuit Court of Appeals upheld

the decision rendered by a lower court eleven months ago-that Morse was guilty of violating the laws governing national banks.

And from this latest decision there is only one appeal-to the Supreme worite, won the Flight Stakes, valued Court of the United States. This appeal was taken. Judges Lacombe, Coxe

auto and Noyes granting a writ of certiorari river, set a new record at Lowell, to Martin W. Littleton, the convicted financier's lawyer. Morse's chief hope is that President Taft, moved by the

> great work of restitution done during the little magnate's brief term of liberty, may pardon hkm. In fact, the Circuit Court practically pointed out in its decision that towards the Presi dent alone Morse should look.

Morse, always a gambler, took the blow without a quiver. It was upon his faithful wife, who has given up all her luxuries and has worked day and night to help him, that the setback came with full force, but after her first outburst of tears, she, too, displayed wonderful pluck.

Report Shows Indians Increasing.

The idea that the American Indians are decreasing is disproved by official figures showing that there are more than 300,000 red men in the United States, an increase of about 40,000 during the last two decades.
