Judge W F Norris formerly of Me-Cook, Nebr. who for a number of years represented the United States in a judicial capacity on the bench in the Philippine Islands, was the principal speaker at the monthly meeting of the Nebraska State Ass'n held at "Neighborhood House" in this city last week .

"Neighborhood House" is in all essentials a settlement House, and is under charge of former Nebraskans, Mr and Mrs Neligh, -Mr Neligh being for many years a resident of West Point. They have been settlement workers for many years. It has been but re cently that "Neighborhood House," which is located in southwest Washington, amid squalor and want, has come to the front as an institution which has changed conditions immeasurably in a neighborhood bounded in one side by the Potomac River, on another side by stables, and on still another side by a garbage plant, the fourth side open to dumping grounds, government storage places and the like.

Senator Isidor Raynor, of Maryland, in his answer to the speech of Senator Burkett, has taken occasion to use some thoughts presented by the senior Senator from Nebraska on the Postal Savings Bank bill, by heading his speech in the Cong. It will be recalled that Senator Burkett paid his compliments to the Senior Senator from Md, who is a strict constructionist of the been living on a claim in the western here and notified the dead man's fathconstitution, by stating that Senator Raynor, if he had been a great musician would have always insisted upon singing requiems; that if he had been been bere for about five years and was a preacher he would always have been found delivering homilies for the departed. Raynor came back the other day with a vitriolie attack upon Senator Burkett, forgetful of his position, as constitutional lawyer (self appointed) and really made a laughing stock of himself in his answer to Burkett's closely prepared speech. So "Price" is really the Worth of the thing sold. "Cost" means how well the thing bought proves up in actual use.

So we're not so far off the track today, for when you buy paint, the Price of it should be the measure of its usefulness, in appearance and wear. Its Cost to you will be how well it stands the test you put it to. If it

does well, it's cheap; if not, you paid too much. Measured by this, poor paint costs far, far more than good paint; never worth the price asked and never
