A Special Offer The big daily papers find it necessary and profitable to keep increasing their subscription list, and one of the fastest growers is the Lincoln State Journal. This splendid state daily has just opened up another big subscription campaign, offering the paper to January 1, 1911 for only \$2; with Sunday \$2.50. This special rate will bring the business. The Journal has a way of its own—cutting out a lot of expensive methods of getting subscribers and making a low rate to its readers direct. The people of the state as never before are looking to The Journal for the real thing in the state. It is building up its business through reliability and enterprise, especially in covering the state news. Another good thing about The Journal is its policy of stopping every paper when the time is up. If you don't pay for it you don't get it, and when you do pay for it you are only paying for your own paper, not helping to pay for the one sent some deadbeat. You will like the clean cut methods of The Journal people.

Impossible to be Well It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J. C. The Herald and Farmers Tribune 1 year - \$1.00 The Stark Year Book for 1910 is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records. Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$1.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California grape quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced. To any one planting one tree or many, of fruits or ornamentals, this book is of inestimable value—a horticultural text-book—a guide to proper selection. Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality. Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.
