

Big Circus at Sioux City.
Ringling Bros. World's Greatest Show to be There Saturday, July 9th.

Ringling Bros' World's Greatest Shows will, on Saturday, July 9th, give two performances in Sioux City. This will be the only opportunity this year of seeing the best of all circus entertainments. This is the show that amazed New York City with its European company of actors, and its extensive new menagerie. Its parade is the best and most superb spectacle that ever went through the streets of any city on earth. On April 8, 1883, the five brothers gave their first performance in their home town, Baraboo, Wis., on the public square. They made their own tent and their own ring properties. The audience sat on planks borrowed from a lumber yard. They had but one horse. From that little one-ring affair to their present stupendous organization the history of the Ringling Bros. reads like a fairy tale. They began with nothing. They now own the greatest amusement enterprise in all history.

Among the many European features offered this year are the Schuman horses from the Circus Schuman at Berlin, Scherzinger and Frankfort. Albert Schuman, a trainer of horses, is the most wonderful man in history. He has made \$100,000 exhibiting the animals he has trained. There are 15 animals in his act. They enter the arena concealed in large beer barrels piled upon immense heavy wooden stands. They are not discovered by the audience until they kick the heads out of the barrels and jump into the ring. They pull the hinges from kegs, drawing a beer-like fluid and drinking it from glasses. They roll over other objects in barrels, walk in time to music, skip the rope, and smoke pipes. From the beginning to the end of their act they remain standing on their hind feet.

Fire destroyed the Northwestern depot at South Sioux City Tuesday afternoon at about 2 o'clock. The agent occupied the upper story of the building with his family, and was upstairs when the fire broke out in the freight room on the west end of the depot. The agent and his wife had a narrow escape in making their exit from the burning building, and saved nothing but what they wore on their backs. Even the money in the operator's office was lost, so fierce and quickly did the fire do its work. An Italian bank operator standing near the depot was also consumed. It took hard work on the part of the crowd that assembled to save the Smiley buildings just north west of the depot. The origin of the fire is attributed to a passing freight engine. Fletcher Cooper, the station agent was severely burned while attempting to save the money in the ticket office.
