Gov. Shallenberger in an interview in the State Journal declares the primary law as vicious. Shallenberger signed the bill that made the present primary law and got "stung" sooner than anybody expected. He has shown himself a hard loser.

Col Roosevelt Commends Senator Burkett

When Colonel Roosevelt was in Omaha September 2nd and made a speech at the Auditorium, he was introduced by Senator Burkett. In response to the Senator's introductory address Colonel Roosevelt gave him a splendid endorsement. The former President's remarks, as reported in the Lincoln Journal, were as follows:

"I am particularly pleased to be introduced by Senator Burkett," said the Colonel, "because he was one of the men on whom I especially relied while I was President, both while he was in the house and in the senate. On one occasion he paid a tribute to me which may have been entirely unmerited, in which he described what the typical American public servant must be. He said: In the great struggle of life he (the good American) must be prepared to take the side of the man rather than of the dollar. Old time methods in politics, old time ideals of governmental duty and prerogative are relegated to the junk shop of political antiquities. No man who is skeptical in his own mind of the righteousness of the advanced ground that the American people have taken socially or morally can have their confidence. No man who is fearful of the popular rule, or is more afraid of the people's oppression of predatory wealth with law than of its oppression of the people without law is eligible to popular esteem."

"In my own case," Colonel Roosevelt continued, "All I can say is that I have endeavored to live up to that description and that I was able to accomplish what I did accomplish in Washington only because of the way in which I was backed up by men like Senator Burkett, and as we have a guest from Iowa present, let me say, also, like Senator Dolliver

is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records.

Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$10.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California grape quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced.

To any one planting one tree or many, of fruits or ornamental, this book is of inestimable value—a horticultural text-book—a guide to proper selection. Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality.

Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.
