Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial." -Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyere, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Personal Property

LANSING, MIREL APRIL, 29, 1910.

Union Roofing & Mrg. Co.,

St. Paul, Minn. Gentlemen: -

We desire to obtain samples of all the roof-ings which have been approved by the Underwriter Laboratories, Inc., and as we note that your "Galvanite (Prepared)*, is on their approved list, we would be pleased to have you favor us with a fair sized sample, together with retail price per square. We intend placing this information in the hands of our Inspectors that they may know the difference between approved and unapproved condings, enabling them to recommend only the approved oned. Thanking you in advance for your sample by early mail, we remain,

Very truly yours.

TRIPLE ASPHALT COATED---MICA PLATED

ROOFING

Is Approved of and Recommended by Fire Insurance Companies The letter reproduced above was sent to us voluntarily by one of the big

fire insurance companies that insures big, costly milling plants, and who demand, as a matter of protection on these extraordinary risks, that every precaution be taken in the construction of the plants to safeguard them as much as possible against fire. The fact that they approve and recommend Gal-va-nite indicates that

they recognize that its fire-resisting qualities make it desirable for these big risks. YOU might as well have the benefit of this quality on YOUR roofs.

Put on Gal-va-nite and you reduce the cost of your insurance. You will be taking the minimum risk of having your buildings catch fire. You will reduce your repair bills, as Gal-va-nite will last as long as your

building without painting or repairing. And, you will be getting a roofing every roll of which is absolutely guaranteed. We make Gal-va-nite in our own factories and know just how each roll is made and we have confidence enough in it to back it up with our guarantee. We use a heavy wool felt, triple coated on both sides with mineral asphalt.

It is then coated on both sides with flaked Mica, a mineral product that never wears out. It is this coating of Mica that insulates Gal-va-nite against the danger of sparks and fire brands.

Gal-va-nite will not crack, and because it is pliable is easy to lay. One man with a hammer and jack knife can do it. Comes in rolls of 108 square feet with nails, cement and full directions for laying.

You can get Gal-va-nite at your dealer's. If not, write us and we will send you our free book on roofing together with samples of Gal-va-nite.

BOYS' FUN WITH BROOMSTICK

Youth Can Extract More Pleasure With Useful Household Article Than Anything Else.

It is a long time since brooms came into use. Their invention was of great benefit to the world in alding to keep it clean-but have you ever considered another phase of their usefulness? Since brooms have been in use, just so long have broomsticks Said a pert little dog to a tall giraffe, ever had a peculiar charm to boys. The average boy can extract more amusement from the broomstick than atmost anything else with which he comes in contact, says People's Home

Divide the players in pairs of teams of two, providing as many broomsticks as there happen to be teams Then direct them to grasp their respective broomsticks as shown in the accompanying illustration, each facing in the opposite direction. Then line them all up at the starting point ready to run the race.

They're off! But don't think they

A New Broomstick Pastime.

are going to do a 100-yard dash in record time. The funny part of the fore-and-aft race is that the chap who in Buckingham palace. faces the front invariably tries to team mate to run backward half as day. fast as he runs forward, so the chances are there will be a good many trip-ups and the race will be won by the pair who can best adapt their irregular gaft to each other instead of the swiftest contestants.

Now, as you will see, headwork is more apt to win when it is coupled with the footwork than speedy footwork alone. So use your heads to regulate your feet; in other words, use good "teamwork," as they say in athletics, and you'll be successful in this broomstick pastime of the "foreand-aft race."

ILLUSION WITH SPINNING PIN I wanted all they helped me to When I went out to tea."

With Little Practice One May Suc cessfully Imitate Very Many Objects.

Take a piece of rubber or elastic and run a pin through it as the figure shows. Twirling the ends of the elastic vertically between your thumbs and forefingers, and separatyou give the object a sufficiently swift image of a drinking goblet, says Magica! Experiments. The illusion is the

A Spinning Pin.

more complete in proportion to the shines in and the darkness of the background. In the picture, we suppose the operator placed in a dark room, through a hole in the shutter of which a ray of sunlight creeps in and illuminates the pin.

With a little practice you may suc ceed in imitating very many objects. Try for yourselves and see what you can make.

PRINCESS MARY NOW TYPIST

King George's Only Daughter Learns How to Operate Typewriter-To Learn Stenography.

Princess Mary, King George's only laughter, has recently learned to use typewriter. There are two women typists at

ached to the secretarial staff of Mark orough House, which is the king's esidence, one of whom, at the priness' request, taught her how to operate the machine. The princess proved an apt pupil and devoted herself so assiduously to the work that after a few weeks of instruction and practise she was able to work a typewriter at a fair rate of speed.

During the reigning family's recreation at Balmoral, Scotland, her royal highness will assist in typing some of her father's more private correspond-

The princess intends to learn stenography also and is keenly looking forward to helping her mother, Queen Mary, regularly with her correspondence when the royal family is settled

This princess was the first royal carry the boy facing the rear off his personage to open an account in the feet in his efforts to make speed. He postoffice savings bank, which she did forgets that it is impossible for his three years ago on her tenth birth-

VISITING.

"My little girl, I hope you tried Your very best to be, Quite ladylike and well-behaved, When you were out to tea!

"And that you said: 'Yes, if you please," When things were offered you; Or, 'No, I thank you, quietly, Just as I told you to?"

Yes, mamma, dear, I smiled and said: 'Yes, thank you,' so polite; And 'If you please,' and sat up straight And always acted right.

I didn't say, 'No, thank you,' though,

TELLING AGES OF ANIMALS

Not Yet Possible to Determine Age at Which Many Sea and Land Creatures Die.

Some sea creatures and a few land creatures live so long that it has not ing the hands in order to tighten it, yet been possible for man to determine the age at which it is natural rotation to enable it to produce the for them to die. It is stated, for instance, that in 1497, in a European lake, a pike was caught which could not have been less than 270 years old. There was a brass ring in the fish's lower jaw, and on the ring an inscription showing that the ring was placed there in the year 1230-267 years previously. Again, if the bone plates in a whale's mouth, which are said to increase regularly each year, are an indication of the creature's age, as is believed, then 400 years is not an unusual lifetime for a whale. Even the common ring trout lives from 30 to 50 years.

The natives of India believe that elephants live to be 300 years old. One was kept in captivity 150 years, and the age of the animal at the time of his capture was not known. Camels normally die between the ages of 40 and 50, horses from 20 to 30, oxen at 20, sheep at 8 or 9 and dogs at 12 or 14. Swans 100 years old and ravens older have been known, while pheasants and ordinary chickens live 12 or brightness of the pin and the light it 15 years-provided they do not find their way to the frying pan many sea sons earlier.

Pillow Climbing.

in the middle of the floor, some little distance apart, place sofa cushions, stools, umbrella stands, large vases, etc. From among the company choose some one who has never been "hoaxed" and ask him to first walk over the course around and between these articles, so as to fix in his mind their situation and distance apart. He is then blindfolded and told to find his way carefully among them again so as not to touch anything.

Very gingerly he will do so, and when triumphant over his success the bandage is taken from his eyes, to his Which is heavier, a half or a full surprise, not an article remains on the floor. All were quickly and quietly The half, because the full moon is as removed while he was being blindfolded.

His cautious movements and tack ing here and there to avoid the obstacles that are not there, make fun for the onlookers.

Here's a Riddle. He went to the woods and caught

it; he sat him down and sought it; because he could not find it, home with him he brought it. Answer-A thorn. He went to the

roods and got a thorn in his foot. Then he sat down and tried to get it out, and because he could not find it, he had to take it home.

Should Hunt the Butchers. "Men hunt lions and tigers," expinined mother, "because they kill the and that cow is hig enough to be joined Joe, "why don't they get busy and bunt the burners, 100?

ZINC TOWN TO BE A MODEL

Have Elevated Railroad and Many Advantages-is an immense Enterprise.

According to well established re orts, Stephen S. Palmer of New York president of the New Jersey Zinc company of Pennsylvania, who has been at Statington, Pa., for severa months personally supervising the construction of a new \$10,000,000 plant, has also arranged with the Thestnut hill railroad for an extension rom its present terminus at Kunklelown, Monroe county, to Stroudsburg, to connect with the Lackawanna

Mr. Palmer's project is said to be rivaled in America this year only by two other great industrial organizations-one at Gary, Ind., by the United States Steel trust, and the other at South Bethlehem, by Charles M. Schwab, For many years the parent plant of the New Jersey Zinc company of Pennsylvania was in South Bethlehem. The workmen of the plant, many of whom 40 years ago came here from France and Belgium, to produce zinc, are the best and most respected craftsmen in the town. When, during the Bethlehem steel strike, the rioters assaulted workmen ndiscriminately, Mr. Palmer decided o abandon the plant there and concenrate his industry in the Palmerton section, where the new plant was located and the town named for him. The immensity of the enterprise can

be imagined from the fact that the furnaces and reducers will scattered along a range of five miles, and to adjust itself to new conditions, the Central Railroad of New Jersey has decided to abandon two old stations and erect a new one in the center of the works at a cost of \$100,000. It has been decided by Mr. Palmer to spend \$1,000,000 to make an elevated railroad, first, for the safety of the workmen and their children, part-

preserve the beauty of the town. PARIS KNOWS THEIR VALUE Smooth, Clean Highways and Beauti-

ful Parks Are Profitable to

ly for economic advantages and to

the City. Paris has accepted unflinchingly the doctrine that smooth and clean highways are a wise investment, and that so long as the work is done in a thorough and scientific manner, with an honest and skillful application of means to ends, the result is worth you nothing. My mind is made up." having, regardless of cost. The expense of maintaining, cleaning, and sprinkling the streets is greater than in any other European city; but the sort of pre-eminence that such a street service helps to secure is profitable in a hundred indirect ways, writes Harvey N. Sheppard, In the Outlook.

July, wanted to know what they were Paris has by far the richest park equipment of any city in the world. anxiously inquired if they would hurt The area of parks within an afternoon's excursion is 20,000 acres, while farther away are more extensive public grounds, such ac Versailles and Fontainebleau. It is impossible to estimate the profits which Paris derives annually from its parks, boule-DR. MARTEL'S FEMALE PILLS. vards and public buildings Bankers have estimated that Americans spend upwards of 500 million dollars annually in foreign countries, and it is safe to say that Paris receives at least one-fifth of this vast sum, the profits from which are as great as are the profits from pork to Chicago, shoes to St. Louis, and beer to Milwaukee.

The experience of Paris ought to convince the most skeptical that there is no modern community of civilized men which cannot afford to provide the most perfect public appointments that technical and scientific knowledge have discovered; well-made and clean streets, good water, proper drainage, convenient transit facilities, complete schools, and thorough sanitary organizations. No city should think itself rich enough to prosper without them, and no city is so poor that it cannot afford them.

Urban Martyrs.

At a church supper a small boy was seen to turn pale and lean back in his chair. One of the waitresses asked what was the trouble, and learned that it was the stomach ache. "You poor little fellow, you won't be able to finish that nice supper, will you?" asked the waitress. "Oh, yes I will," replied the boy, "it will have to ache a good deal harder before I'll quit ent-Just this form of heroism will stand in the way of any wholesale movement to drive the excess of consumers in the city back to the country to become direct producers. They will complain of high prices, low wages (about twice what the same grade of labor on farms receives). long hours of work (about two-thirds of what our grandfathers considered reasonable), difficulty of geting work (when owners of farms are clamoring for help), high rents and board (when rent and board are offered in the country as a bonus beyond wages), but they are nowhere near the point of suffering at which they will be willing to leave the incidental pleasures of city life.- Dietic and Hygienic Gasette.

Well Protected. "I think there is somebody downstairs, George."

"Well, what of it?" "Can't you get up and do something? Put your head out of the window and call a policeman."

"Why should I do that, when I can put my head over the back stairs and call one? His number is 7238, and he's down there in the kitchen spoon. ing with Mary, the cook."

blissful Bickering. "John, I understand that you have been saying mean things about me to

your acquaintances. "Why, dearest? Everybody knows that isn't so! Why, I tell everybody that it is you that have made me what I am."
